**Jaundice Bitters.**

This is an effective cure for Jaundice, Headache, Dyspepsia, Worms, Dizziness, Loss of Appetite, Colds and Fevers, and Darting Pains, Stranguary, Dropsy, Croup, Pthibic, and Liver Complaint.

**Caution Extra.**--The public are hereby cautioned against a base imitation of L. F. ATWOOD'S BITTERS, by some evil-minded persons, who have not only copied the label in part, and adopted precisely the same style of bottle, but have had the barefacedness to present on their label, that theirs is the same as L. F. Atwood's. And the more completely to dupe the public, they say, "beware of counterfeits and imitations," and call their vile trash "genuine." Therefore, all GENUINE put up after this date, will bear an extra label countersigned by H. H. HAY, Druggist, Portland, Me., Sole General Agent.

B. Thurston, Steam Book, Job and Fancy Printer, Fox Bleck, Portland, Me.

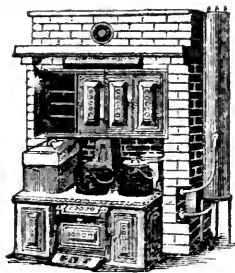

# CHILSON'S PATENT CONE FURNACES.

PATENTED IN THE  
United States, England & France.

The extensive use of this superior Furnace in the United States has acquired for it a reputation too well and favorably known to need more at this time than to call the special attention of those in want of the best possible means of warming dwellings, public buildings, &c., with *pure, fresh, healthful heat*, (free from that scorching, dry, red-hot iron heat, and coal gas, so common to hot air furnaces) to an examination of this superior invention, which represents a cluster of Cones, or tapering Radiators, over a broad, flaring-shallow fire-pot. These cones being large at the base and small at the top, secure the great and important object of retaining and holding the smoke and gases back, in contact with the burning fuel—thus thoroughly consuming the gases while their heat is compressed up, into the cones, and made to impinge against and radiate from the tapering surfaces—*thereby securing twice the heat from a given amount of coal* that can be obtained from any other plan known to man. This furnace is very simple in its construction and easily managed, and much less liable to need repairs than any other plan of furnace in use.

Also, five sizes of PORTABLE FURNACES, on the same principle, that are giving perfect satisfaction. A special invitation is given to all interested in the heating and ventilation of buildings, to examine the above assortment of Furnaces.

# CHILSON'S PATENT ELEVATED DOUBLE OVEN COOKING RANGE.

This very superior Range, now in so general use, needs only to be seen to understand the great improvements attained in this invention, over any other plan of Range in the United States. It is *entirely new in principle*—having five claims patented for improvements, not found in any other Range:—Its unparalleled economy in the consumption of fuel, its quick and even baking ovens, its patent self-regulating flues around the ovens (without the usual vexatious complication of dampers found in the common Ranges), its cast-iron flue plates around the oven preventing loss of heat in the chimney. Its superior fine heavy castings, and general beauty of design and conveniences, cannot fail to commend themselves to all using Ranges. Sizes in variety for dwellings, hotels, &c., with or without Water Backs for Bath Boilers and other washing purposes; also, Hot Air Fixture for heating additional rooms when desired. No housekeeper will long use any other plan of Range or Cooking Stove after once seeing this Range.

# CHILSON'S NEW PARLOR STOVE.

Of all the innumerable plans of Stoves yet invented, this certainly surpasses them all—and every person desirous of seeing a perfect stove is invited to look at this one, whether wishing to purchase or not. Sizes adapted to *parlors, chambers, offices, or stores*, its improvement consists in its Great Heating Power, and Unparalleled Economy in Fuel. This is secured by retaining the heat in the base radiator of the Stove, (below the fire-grate), thus warming the FLOOR and LOWER CURRENTS of air in the room for a great distance around the Stove, instead of the heat being let off at the top of the stove, and the floor and lower currents of air in the room being cold, as is the case with the common stoves.

This Stove has an excellent arrangement for VENTILATING the Room, and at the same time it cuts off the Draft from the burning coal, so that a fire may be kept day and night from Fall till Spring by replenishing the fire once a day.

It has a lever-grate so arranged, that the ashes may be shaken out, or the fire let down into the ash-pan, WITHOUT MAKING ANY DUST in the room.

This Stove is very beautiful in its appearance, the Castings are very DURABLE, and have a very fine, smooth finish.—and, finally, it is altogether the most perfect Stove ever made.

On hand, and now making, a large assortment of the different Sizes; SOME OF WHICH ARE FITTED WITH AN OVEN AND BOILER, TO SERVE AS A PARLOR COOK STOVE, adapted to the Dining Room, &c.

ALSO — MANTEL GRATES, REGISTERS, VENTILATORS, STOVES, &c., &c.

Special attention given to PUTTING UP Furnaces and Ranges, and the Ventilation of Buildings in any part of the country.

# GREAT CURE!

## Dr. LELAND'S ANTI-RHEUMATIC BAND!

PERMANENTLY CURES

### RHEUMATISM,

IN ITS VARIOUS FORMS,

Gout and Neuralgia, Stiffness and Nervous Affections, Erysipelas, General Eruptions, Impurities of the Blood, and a Sure Cure for the Evil Effects of Mercury.

It is a conveniently arranged BAND or BELT, containing a medicated compound, to be worn around the body, about the waist, EQUALLY AFFECTING ALL PARTS, *wherever the disease may be*, and can be worn *without injury* to the most delicate person. No change in the proper habits of living is required, and it *entirely* removes the disease from the system, without the *fallacious* use of powerful internal medicines, in such cases, which weaken and destroy the constitution, and give *temporary* relief only, by *stupefying* the system, and *deadening* its *vitality*. By this treatment, the medicinal properties contained in the BAND, being of a *highly aromatic* and *volatile nature* and *capable* of being *readily absorbed* through the *pores of the skin*, come into *direct contact* with the BLOOD and *general circulation*, without first passing through the process of digestion, which would tend, not only to detract from their curative powers, but to impair the internal organs and derange the digestion also.—Thus avoiding the *injurious effects*, so often the result of *internal remedies*, and effecting a *perfect cure*, by *purifying and equalizing the circulation of the vital fluids*, and *restoring the parts affected to a healthy condition*. This BAND is also a *most powerful* "ANTI-MERCURIAL AGENT,"—Calomel being the *primary* cause of a large part of the stiffness, Neuralgic Pains, and Rheumatics, so prevalent—and will *entirely relieve* the system from its *pernicious effects*.

Moderate cases are cured in a few days and we are constantly receiving *undoubted* testimonials—to which we invite inspection at our office—of their efficacy in aggravated cases of *long standing*.

Price Two Dollars.

Sent by mail upon receipt of \$2, or by express everywhere, with all *necessary instructions* from the principal office of

C. SMITH & CO., 491 Broadway, N. Y.,

# P R E F A C E .

---

In this volume which accompanies our new Map of Maine, we present to the public a very full Directory of persons who are engaged in the industrial pursuits of the State, so arranged as will be of convenient reference. This will furnish the means of ascertaining the persons and their employments in the numerous towns of the State. With this is connected an Advertising Department, which gives particular information of persons and places in their several localities, and of the materials and occupations about which they are engaged.

We have added to this large commercial department, a concise History of the State, from its first discovery to its separation from Massachusetts in 1820; with a description of its Area and Surface, of its Rivers, Lakes and Mountains, and the present condition of the Aboriginal Inhabitants.

There will also be found in the following pages a brief account of the Literary, Philanthropic, Penal, Financial, and Commercial Institutions and Establishments of the State; copious Statistics of its commerce, agriculture, and manufactures; of its resources and wealth; of its population and progress; with a full and complete Register of its civil government, including State and County officers.

We have aimed at thorough accuracy in these multifarious details, but with all our efforts, conscious of the imperfection of human machinery, there will undoubtedly be found errors. We trust, however, they are not serious, and will receive a partial judgment in view of the abundant stores of what is useful and correct.

In offering to the people of Maine, and of other parts of our country, the large mass of valuable information contained in this volume, and in the accompanying Map, which is one of the best executed, and most accurate maps ever published in the United States, we feel assured that our long and unwearied devotion to the work, and our vast outlay in preparing it for the press, will be appreciated by a generous public, and especially by the citizens of our own commonwealth, to whose favorable consideration it is now most respectfully submitted and dedicated.

**The letter S denotes the Sundays in each month.**  
 The above table is convenient for finding the maturity of bills or notes. The Index represents the days of the month; the opposite columns give the days of the year represented by such days of the month. *For Example:—* A note at 60 days, dated January 8th, being the 8th day of the year as is seen in the January column on a line with January in the Index, by the addition of 63 (including 3 days of grace) shows the note falls due on the 71st day of the year, which will be found on reference to the month and the Index, to be Tuesday, the 12th day of March. In like manner, a note at 60 days, dated 15th of June, falls due on the 229th day of the year, being Saturday, the 17th day of August.

A SUMMARY

HISTORICAL AND STATISTICAL

VIEW OF MAINE.

---

BRIEF HISTORY.

The attempts to colonize the northeastern portion of the United States were first made on the coast of Maine. The early voyagers, of different nations, from Cabot in 1496, to the first permanent settlement of the country, visited this coast for discovery and commerce. But the first attempt at settlement was made by De Mont, under the French, who, having received a grant from the king of France, planted a large and well appointed colony on Neutral Island, in the St. Croix river, in 1604. The place was unfortunately selected, and was abandoned the next year. In 1605 the coast in the neighborhood of the St. George river was visited by Weymouth, and explored to a small extent, which led to the first attempts of the English to colonize the coast by sending a large colony to the mouth of the Kennebec river in 1607, under the charter of 1606 which embraced the whole country from N. lat. 34 to 44. This colony consisted of one hundred men in two ships, under command of Capt. Geo. Popham, as President, and Capt. Rawleigh Gilbert, as Admiral. They planted themselves on Hunnewell's Point at the mouth of the river. This attempt also failed from the bad location and other mischances.

The advantages of our coast had by this time become noted for the fish and fur trades, in which many ships, both English and French, were successfully engaged for many years, making their principal port at Monhegan Island.

In 1613 the French Jesuits established a mission at Mount Desert, which was destroyed by the English the next year. In 1616, Sir Ferdinando Gorges, a leading and prominent adventurer, and promoter of colonization in New England, sent his agent, Richard Vines, with a colony to Saco River, to remain through the winter, and explore the country, and test the climate. A company of fishermen was also established at Monhegan at this time by the patentees, to aid in their fishing and commercial operations.

In 1620, a division having taken place in the grand patent, which had included Virginia and New England, the northern portion, between latitude 40 and 48, was incorporated as the northern or Plymouth colony. By this arrangement a new impulse

was given to the efforts of colonization. In 1621, ten or twelve ships procured full cargoes of fish and fur, and in the next three years one hundred and twenty-five ships were engaged in the same trade. In 1622, Gorges and John Mason obtained a grant from the Plymouth Company of all the territory between the Merrimac and Kennebec rivers; and the next year they planted a colony which occupied both sides of the Piscataqua River. This may properly be considered as the first permanent occupation of the mainland in Maine. In 1625, Pemaquid was occupied. In 1624, Gorges planted a colony at York, which became flourishing, and continued under the management of Godfrey and others, many years. In 1630 to 1632, settlements were commenced at Saco, Biddeford, Richmond's Island, Spurwink, Black Point, and Casco, now Portland and Falmouth. These all continued to grow and become flourishing, until their entire overthrow in the Indian war of 1675.

In 1635, the Plymouth Company surrendered their charter to the king, having first divided the territory among the principal proprietors. The eastern portion was granted to Sir Wm. Alexander, Earl of Sterling, as far west as Pemaquid. Between that and the mouth of the Kennebec, was *Masonia*, which belonged to John Mason; then came Gorges' Province extending to the Piscataqua, which he named New Somersetshire from the county in which he lived. He immediately sent over his agent and nephew, Wm. Gorges, to take possession, and govern, with the aid of a council appointed by the proprietor, his province. The first court under this organization was held in March, 1636, at Saco.

In 1639, Gorges obtained from the king, Charles I., a confirmation of his grant, with more ample powers of government than were ever bestowed upon a subject, and in which for the first time appears the name the State now bears, which the charter requires to be adopted. A new government was established, which continued with various interruptions from other causes, until the heirs of Gorges sold all their rights to the colony of Massachusetts in 1677, for £1250. Gorges died in 1647. The eastern portion of the State below the Penobscot was in the hands and under the jurisdiction of the French, as part of the Province of Acadia, until the overthrow of French power on this continent in 1760. The territory between the Penobscot and the Kennebec, although claimed by the French, was generally possessed by the English; at one time under a grant to the Duke of York, at another under proprietary titles, and lastly by Massachusetts. The charter of 1691 to Massachusetts embraced the whole territory from the Piscataqua to the St. Croix, under the title of the Province of Maine, and her jurisdiction was exercised over all the portions she was able to possess. This continued through the periods of the Colony and the Commonwealth, until the establishment of Maine as a separate State in 1820.

#### SITUATION AND AREA.

The State lies between 42° 57' and 47° 30' N. lat., and 5° 45' and 10° 10' East long. from Washington, and embraces an area of 32,000 square miles, or 20,000,000 of acres. It is the most eastern of the United States, and larger than all the rest of the New England States. It is bounded west by New Hampshire and Lower Canada; North by Canada; East by New Brunswick; and South by the Atlantic Ocean. Its greatest length on a diagonal line from the mouth of Piscataqua river to the northern angle is

320 miles; the greatest width from the sea to the Canada line, 160 miles; on a straight line from Piscataqua river to Quoddy Head is 250 miles.

The *surface* of the State is diversified; the north-western and central portions rising in lofty summits, the highest of which is Katahdin, 5300 ft. above the level of the sea; Mt. Abraham in Franklin Co., 3400 feet; Mt. Blue, in the same Co., 2800 feet; Mars Hill, in Washington Co., 2000 feet; the Highlands, at the monument on the Canada line, 2000 feet; Streaked Mountain, at Paris, 1750 feet; and the elevated peaks in Oxford County, Spurs from the White Mountain group, rising to the height of from 2000 to 3500 feet. On the coast are some striking eminences which greet the eye of the mariner as he approaches from his weary voyage, as the Agamenticus hills in York, rising 670 feet; the Megunticook, in Camden, 1500 feet; the highest peaks on Mt. Desert, 1500 feet. The groups of the Saddleback, Mts. Abraham and Bigelow, lie between the Androscoggin and Kennebec rivers; the Ebeme and Baker mountains between the Kennebec and Penobscot; the Katahdin group divides the two main branches of the Penobscot. Among these mountains are rich and wide-spread valleys, watered by extensive and fertilizing rivers.

#### RIVERS.

The principal rivers are the Saco, the Androscoggin, the Kennebec, the Penobscot, the St. John, and the St. Croix, all which, but the St. Croix, rise in the northern and northwestern parts of the State, and run in an easterly and southerly direction, fed by large lakes, and irrigating every portion of the territory. They not only enrich the soil, but furnish immense facilities for navigation, and for manufacturing and commercial purposes, equal to those of any other State.

*The Saco*, after entering the State in Fryeburg, has a length of 80 miles, passing through large meadows, and over numerous falls, to the sea at Saco.

*The Androscoggin* rises in the highlands forming the northwestern frontier near the sources of the Chaudiere. After running twenty-four miles in a southerly course, it joins a chain of lakes, through which it flows southeasterly about thirty miles, and crosses into New Hampshire at Errol. Here it receives the Magalloway, its main branch, and then passing on about thirty miles in N. H., it is turned suddenly east by the impassable barrier of the White Mountains, and enters Maine again at Gilead. Thence flowing on this course about fifty miles, it is diverged by the Highlands in Jay southerly, and reaches the Kennebec in Topsham, after its devious and rough passage over many abrupt precipices, of one hundred and eighty miles. At Brunswick, where it meets tide water, the fall is forty feet. At Rumford in the space of one mile its fall is estimated at three hundred feet; at Berlin it is fifty feet; at the foot of these falls it is eight hundred feet above the level of the sea.

In its course it receives numerous tributaries, which increase its volume of water until it becomes one of the most copious in the State, discharging in its lowest state at Brunswick four thousand cubic feet in a second of time.

*The Penobscot* is the largest river of the State; its whole course lying within it. With the Mattawamkeag and its eastern branch, it embraces the northeastern portion of the State; its northern, northwestern, and western branches extend to the sources of the Aroostook, and St. John and the Highlands of Canada. The various tributaries unite

in the central part of the State, and pour the accumulated contributions of the remote regions they traverse into the spacious and beautiful bay which connects them with the ocean. The great western branch of this river is supplied from two sources,—the southwest and northwest branches; one rises in the frontier near the source of Moose River on the south, and the *Du Loup* of Canada on the north; the other near the southwest branch of the St. John. They unite about thirty miles from their respective sources. The river then continues in an easterly, then a northerly, and afterwards in a southeasterly direction over steep falls and long rapids, passing within a mile and a half of Moosehead Lake, expanding itself into numerous lakes, and laving the feet of Mount Katabdin, which create precipitous falls. It receives the eastern branch one hundred and twenty miles from the source of the main river, and twelve miles below the Mattawamkeag; then changing its course, it flows directly south to the sea, two hundred and twenty miles from the source of the western branch, which is two thousand feet above the sea level; the eastern branch is about sixty miles long, and the Mattawamkeag eighty. The whole territory drained by the river is about eight thousand square miles.

The *Aroostook* flows easterly about one hundred and ten miles to its junction with the St. John, four miles east of the boundary; its branches interlocking its whole length with those of the Penobscot, the dividing ridge in some cases not exceeding eight feet. It has a gentle current, its descent averaging two and a half feet per mile in the State. After passing the line it has two falls of forty-five feet.

The *Kennebec*, by its two principal branches, the Dead and the Moose Rivers, rises in the northwestern highlands near the sources of the Androscoggin. Moose River, after an easterly course of about seventy miles, enters Moosehead Lake. It is boatable nearly its whole length. The Dead River branch has a longer course, and joins the main river with a channel as wide, but not as deep, about twenty miles south of the lake. The river bears the name of Kennebec only from the lake, and after a course from that point southerly one hundred and fifty miles through a fertile and picturesque country, it joins the sea at Georgetown and Phippsburg. The tide rises to Augusta, to which it is navigable for small vessels; to Bath ships of large draught ascend. To the forks of the Dead River the total ascent is five hundred and seventy feet, to Anson four hundred and seven, to Waterville two hundred and nineteen. At these points and some others there are rapids and falls. The level of Moosehead Lake by the measurement of Dr. Jackson is 960 feet above the sea. The territory included in the basin of this river is five thousand three hundred square miles.

The *St. Croix* River in its whole length forms part of the eastern boundary of the State. The northern or main branch consists in part of a chain of lakes, the remainder is rapid and broken, which renders it unfit for navigation except for logs. The western branch is formed by the Schoodic lakes, and affords an extensive channel of internal navigation. Its source is near the Passadumkeag, a tributary of the Penobscot, and between them a canal might easily be made which would give valuable connection between the waters of Penobscot and Passamaquoddy Bays. Above tide water at Calais, there are numerous mill sites, many of which are largely improved in the manufacture of lumber and other products. The territory within the State watered by this river and the bay in which it discharges is fifteen hundred square miles.

It would not be proper in this summary of the rivers of Maine to omit the St. John, although it has its estuary and a large part of its course in the Province of New Brunswick. It rises in the highlands which form the northwestern boundary of the State, and with its numerous branches occupies about ten thousand square miles, or nearly one-third part of the State. These have their fountains in close proximity to the sources of rivers flowing into the St. Lawrence, and of those crossing Maine to the Atlantic; so that in this part of the State is a complete network of water courses, forming spacious, rich, and fertile valleys. The general course of the St. John across the State is northerly and easterly till it reaches near the Madawaska, whence it is deflected southeasterly to the boundary. The whole length of the river is four hundred and twenty miles to the Bay of Fundy, of which about two hundred and ten miles are in Maine.

The smaller rivers of the State are the Piscataqua, forming the western boundary, York River, the Presumpscot in Cumberland County, the Sheepscot, Damariscotta, St. George, Union, Narraguagus, Machias, and many lesser ones. These penetrate but a short distance into the country, but furnish valuable facilities for manufacturing purposes.

#### LAKES.

Besides the numerous rivers which flow over every part of the State, there are many spacious lakes. The largest of them is Moosehead, the aboriginal name of which is *Orignac*, which means a Stag, or Moose; it lies in Piscataquis County, and is thirty-five miles long, varying in width from four to twelve miles. Its surface above the level of the sea was computed by Dr. Jackson to be nine hundred and sixty feet.

Other large lakes occupy prominent places in every quarter of the State. In the northeast angle lie a conspicuous group called the Eagle Lakes, extending in an irregular course more than fifty miles, and discharging themselves by the Fish river into the St. John.

The northern and western branches of the Penobscot flow upon an elevated plateau through a series of lakes from eight hundred to one thousand feet above the sea level, forming spacious and fertile valleys. Among these lakes are the Chesuncook, about eighteen miles long, the Umsaskis, and substituting the English for the harsh and uncouth Indian names, the Churchill, Heron, and Chamberlain Lakes, the latter eighteen miles long by one to four miles wide; the last four measuring fifty or sixty miles in length; the Pemadumcook and Millenoket add their contributions to the Penobscot.

On the eastern border of the State we find two spacious chains of lakes, forming the sources of the St. Croix River; the northern branch constitutes the boundary for a distance of twenty-five miles, passing the shores of five townships; the western chain stretches over about forty miles to near the source of the Passadumkeag, a branch of the Penobscot, watering in its course eight townships of land, and furnishing great facilities for navigation, lumber, and fishing. Between these lie the Baskahegan, a small lake, the source of a river of the same name, forming a branch of the Mattawamkeag. On the south are the western Schoodic Lakes, and in their immediate vicinity, lie the Nickatous, Meddybemps, and other lakes forming the sources of the rivers Dennis, Machias, Narraguagus, Union, and Passadumkeag.

In the central and more cultivated parts of the State are numerous extensive ponds, which furnish many facilities for trade and intercourse to the inhabitants on their

borders ; among these are the Pushaw, Sebec, Newport, the Belgrade and Winthrop Ponds. In the County of Cumberland are numerous ponds, the largest of which is the Sebago, twelve miles long, and Long Pond ten miles ; the former is two hundred and thirty-seven feet above the level of the sea, and is fed by Long and several other ponds ; in turn, from its ample bosom it feeds the Cumberland and Oxford Canal, and the never failing channel of the Presumpscot River.

On the north-western border of the State lie the long chain of the Umbagog Lakes, whose eastern extremity bathes the feet of the Saddleback mountains, whence it extends through Rangeley and six other townships into New Hampshire, a distance by its devious course of forty miles, and forming a copious source of the Androscoggin River. The elevation of this series of lakes is estimated to be twelve hundred feet above the sea level.

### INDIANS.

Of the once powerful and destructive tribes of Indians that occupied the soil of **Maine** and thrice destroyed the English settlements during the first century of colonization, but two tribes now remain. These are degenerate and feeble, and bear no trace of the subtle, vigorous, and vindictive race which our predecessors had to encounter to maintain a foothold on the territory. These are the remnants of the Penobscot and Passamaquoddy tribes ; they receive an annual stipend from government, which to the Penobscot tribe in 1860 amounted to \$5916, of which \$2970 was the interest on a fund formed from the proceeds of their lands.

*The Penobscot* tribe numbers five hundred and twenty-five persons, and is seated at Oldtown, on an island of that name in the Penobscot river ; they are comfortably situated, have a good chapel and the ministrations of a Catholic priest, to which church they belong. Schools are also provided for them, in which the number of pupils was fifty-four. Their agent in his report for 1861, says : "The number of the tribe has not materially changed for the last forty years ; it has increased rather than diminished ; this may be accounted for, in part, by their intermarriage with other tribes and the French."

There are about one hundred and fifty of this tribe capable of labor, of whom about one hundred engage in farming, and cultivate corn, wheat, oats, potatoes, and other vegetables. A portion of the men in winter are employed in hunting, the women work on baskets, snow-shoes, moccasins, &c. They own cattle and horses.

*The Passamaquoddy* tribe is established at Pleasant Point in the town of Perry on Passamaquoddy Bay. In May their number was four hundred and forty-two, to whom an annuity was paid. Scattered members of the tribe live at Calais, Indian township on the lake, and at some other points, where they are employed in farming, hunting, lumbering, and basket-making, from which with the government grant they have a comfortable living. They have a priest, churches, and schools. In the school on the lake there are twenty to twenty-five pupils, who make good improvement ; at Pleasant Point the school averages thirty-five. The government appropriates an annual sum to aid them in their agricultural pursuits, which renders them very essential aid in procuring the means of subsistence.

COLLEGES AND SCHOOLS.

The cause of education is systematically and thoroughly diffused through the State. Every town of sufficient size is divided into school districts under the supervision of agents and committees, who have power to raise and disburse monies for the accommodation and support of schools; a tax at the rate of sixty cents from each inhabitant is required to be raised for this purpose. Beside which, a school fund now amounting to \$155,000, and constantly increasing by sales of land appropriated for the object, has been established, the income of which and the tax of one per cent upon the capital of the banks is annually distributed to the towns to aid in support of the common schools. By this patronage and the fostering care of the government and people, these schools have been elevated to a high and flourishing condition. The State appoints a superintendent whose duty it is to visit all the schools, examine their condition, take a general oversight of the cause of common education, and make an annual report to the government.

From the report of 1861, we digest some interesting facts :

Population of the State, 1860,	- - - - -	628,300
No. of towns,	- - - - -	396
Organized Plantations,	- - - - -	98
Children between four and twenty-one years,	- - - - -	243,376
Average attendance in summer schools,	- - - - -	102,959
"    "    "    winter    "	- - - - -	118,399
No. of School Districts,	- - - - -	4,146
"    "    parts of Districts,	- - - - -	387
"    "    School-houses,	- - - - -	3,946
"    "    Male Teachers,	- - - - -	2,776
"    "    Female    "	- - - - -	4,632
		} 7,408
School money raised by taxation,	- - - - -	\$405,337
"    "    from School fund and bank tax,	- - - - -	81,817
"    "    "    local funds,	- - - - -	16,678
Contributed to prolong Schools,	- - - - -	12,867
Amount paid for private schools,	- - - - -	27,330
Aggregate expenditure for school purposes,	- - - - -	616,880

By these wise and liberal measures, the means of a good common education are carried to every family in the State, and of which they may partake without charge.

To meet the great demand for teachers, schools have been specially created to train a class of persons for this peculiar and important employment. Some Normal Schools for that purpose had been established; in March, 1860, the State passed an Act providing for an annual appropriation of \$3600 for the establishment of *Normal Schools* in eighteen existing seminaries and academies which shall introduce a department into their institutions for the instruction of teachers. The conditions of this act were accepted by the institutions enumerated in the following table with the most satisfactory results; five hundred and sixty-six persons having availed themselves of the advantages offered since the measure was adopted.

## RETURNS OF THE NORMAL SCHOOLS, AUTUMN, 1860.

The average age of these pupils was 18 9-10.

But the advantages of education in the State are not limited to common schools. There are two colleges well endowed, and furnished with able instructors and suitable apparatus for an accomplished education; these are the college at Waterville, and Bowdoin College at Brunswick.

*Bowdoin* was incorporated in 1792, and partially endowed by the Commonwealth of which we then made part, and largely increased by individual donations, particularly by Mr. Bowdoin. It was not opened for instruction until 1802, when the first class entered and graduated in 1806, with seven members. It has now one hundred and ninety-nine undergraduates, and fifty-five students connected with the medical department, for which the college has been long distinguished. It is now proposed to add to the Institution a law department. The whole number of graduates to 1858 by the triennial catalogue of that year, was twelve hundred and eighty-four, to which about one hundred and fifty may now be added, and medical graduates seven hundred and seventy-four. The library contains twenty-seven thousand volumes. Leonard Woods, D. D., is President.

*Waterville College* was incorporated in 1820, and was established by the Baptist denomination, but is open to all sects and classes. It received donations from the State as well as individuals. The number of students for the year 1860-61 was one hundred and twenty-two; its library contains ten thousand volumes. The President is James T. Champlin, D. D., who is assisted by four professors and one tutor.

*The Theological Seminary* at Bangor is devoted to the preparation for the ministry of persons who have been regularly educated at some College. Its catalogue for 1861 gives the number of students as follows: senior class thirteen, middle twenty-five, junior twenty-six. Rev. Enoch Pond is President, assisted by Professors Rev. George Shepard, Rev. Daniel Talcott Smith, and Rev. Samuel Harris. It was incorporated in 1814, and has a library of over ten thousand volumes.

Besides these institutions are several lesser lights, whose condition and labors demand a distinct notice. These are

The Maine Wesleyan Seminary, incorporated in	-	-	-	-	-	1823
“ Westbrook	“	“	“	-	-	1831
“ East Me. Conference	“	“	“	-	-	1849
“ Maine State	“	“	“	-	-	1855

These are in successful operation under able instructors, and pursuing a career of extensive usefulness.

*The Maine Wesleyan Seminary at Kent's Hill in Readfield* is under the guidance of the Methodist denomination, and has a corps of nine instructors, male and female, at the head of whom is the Rev. Henry P. Torsey. The number of scholars by their catalogue of 1861 was,—males, three hundred and twenty, females, two hundred and twenty-nine. The course of instruction comprises nearly all the English branches taught in colleges, and classical studies sufficient to qualify students for college. Their seminary building is beautiful and convenient, containing a chapel, parlors, recitation rooms, and boarding accommodations for one hundred and forty students.

*The East Maine Conference Seminary* is established at Bucksport, and is under the charge of seven instructors, who teach the various branches of classical and English studies. The number of pupils is three hundred and fourteen, one hundred and eighty-seven males, one hundred and twenty-seven females.

*The Maine State Seminary*, established at Lewiston, under the patronage of the Freewill Baptist denomination, has two hundred and thirty pupils in the classical department, and one hundred and five in English studies; of these one hundred and twenty-nine are young women. Rev. Oren B. Cheney is principal, assisted by nine teachers, male and female, in various branches.

## MAINE HISTORICAL SOCIETY.

This society was incorporated Feb. 5, 1822. The number of corporate members was forty-nine, residing in different parts of the State, of whom eleven are now living; the youngest of them is Judge Peleg Sprague of Boston, who then resided in Hallowell; the eldest, John Merrick of Hallowell, about ninety-three years of age. The first President was the late Gov. Parris, the other officers were Edward Russell, Corresponding Secretary; Benjamin Hasey, Recording Secretary; Prentiss Mellen, Treasurer; and Rev. Edward Payson, Librarian. These are all dead. The present number of resident members is seventy-seven. The officers are, William Willis, President; Rev. Bishop Burgess, Vice President; James W. Bradbury, Corresponding Secretary; Rev. Edward Ballard, Recording Secretary; Prof. Alpheus S. Packard, Librarian; and Augustus C. Robbins, Treasurer.

The Society is in a flourishing condition; it has a permanent fund of about \$7000; has published six octavo volumes of its collections, which are highly creditable to its efforts and historical research, and have made valuable additions to the history of the State.

Its library and cabinet, both respectable, are kept at Brunswick.

## STATE REFORM SCHOOL.

This excellent institution was established in 1850; in which year three commissioners were appointed by the State, to obtain, by gift or purchase, a suitable site for a reform school for the employment of juvenile offenders; \$10,000 was appropriated for the purpose. In 1851, a further appropriation was made of \$20,000 for the erection of suitable buildings. In 1852, a further appropriation of \$25,000 was made for completing and putting the school in operation. The City of Portland presented to the State a

large farm situated in Cape Elizabeth, three and a half miles from the city, in a very eligible location, at an expense of \$8000, on which a spacious and elegant building was erected, forming a beautiful object in the landscape, as seen from many points in Portland.

By the report of the trustees for the year 1860, it appears that, "five hundred and seventy-eight boys have been received into the institution, and instructed in all the branches of a good school education," together with the moral instruction imparted by a well conducted Sabbath School. "They have been all clothed and fed, and four hundred have been sent out again to battle with the temptations and evil influences" of the world. The trustees add that not less than seventy per cent of those discharged "have entered upon a new probation, resolved to lead useful and honorable lives."

The number received into the school during the year, coming from all parts of the State, was two hundred and thirty-four, of whom one hundred and seventy remained at the close of the year.

The trustees further say, "A very commodious room has been fitted up for a library, and it constitutes one of the most valuable and attractive features of the institution, the boys finding there a constant source of instruction and pleasure." A large farm is carried on mainly by the labor of the boys, 13 acres in grass, 15 acres under cultivation, and 10 acres pasture. Among the products of the farm were 50 tons of English hay, 300 bushels of potatoes, 200 bushels of turnips, 500 cabbage heads, 175 boxes of strawberries, 360 bushels of oats, 1591 lbs. of pork, 3551 lbs. of beef, 2782 gallons of milk, 80 doz. of eggs. The trustees remark, that, "in addition to the farm, we have in successful operation a brick-yard, where, during the year, 512,000 bricks have been manufactured, and employing during summer 15 boys, a shoe shop employing 20 boys, a shop for cane seating chairs employing 33 boys, and a shop for the manufacture of clothing, employing 46 boys. These are all valuable auxiliaries in supporting the institution, and in training the boys to habits of industry." The ages of the boys when admitted range from 7 to 19, there having been but one of 19, and 3 of 18 years; the largest number, 103, were of the age of 14.

The whole expense of the institution for the year ending March 31, 1861, was \$20,356.87, which included repairs, improvements, and expenses on the farm. Over \$3000 of this amount was re-imbursed by sales of the products of the labor of the inmates.

Seth Scamman is the present superintendent.

#### THE INSANE ASYLUM

Was opened for the reception of patients in October, 1839. It is established in a beautiful location on the easterly bank of the Kennebec river at Augusta. Its original cost was about \$105,000. The wants of the State have required its enlargement; and its unfortunate destruction by fire in the winter of 1853-4 demanded safeguards and improvements which have been wisely provided by the State at a large expenditure. The first movement for the founding the hospital was commenced by the Legislature in 1832, which appropriated \$20,000 for the purpose, on condition that a like sum should be subscribed by individuals. This met with a favorable response, and Benjamin Brown of Vassalboro, and Ruel Williams of Augusta, subscribed \$10,000 each, whereupon the work was commenced, and carried to a successful conclusion, but at a much larger

expense than was contemplated. During the twenty years which it has been open for the unhappy objects of its care, there have been received into it two thousand two hundred and sixty-three patients. Of these, nine hundred and thirty-two have been restored to reason, three hundred and ninety improved, and two hundred and ninety-eight have died, and there remained under treatment at the close of 1860 two hundred and forty inmates.

The expense of the Institution for the year ending Nov. 30, 1860, was \$34,785, of which \$3,579 was for new buildings and repairs. The receipts from patients was \$34,758, and from products of the farm \$3506.

There is a good library belonging to the Institution, the gift of benevolent gentlemen, which is a valuable auxiliary in the treatment of the patients.

*The following Table gives the operations of the Hospital from its commencement to the present time.*

Year.	Admittance.	Discharged.	Whole No. under treatment.	Recovered.	Improved.	Unimproved.	Died.	Greatest No. in Hospital on any day.	Least No. in Hospital on any day.	Remaining at end of the year.	Daily average No. for the year.

Dr. Henry M. Harlow is the present superintendent.

### STATE PRISON AND CRIME.

The Penitentiary of the State was erected at Thomaston, in the year 1823, and opened for the reception of criminals in 1824. Its original cost was about \$28,000. It is situated in a lime quarry, and for many years the convicts were employed in quarrying limestone. The whole number of convicts received into the prison from its commencement to Dec. 1, 1860, was 1346. The report of the Warden for 1860, says: "The number of convicts received at the prison during the last five years is as follows: in 1856, thirty-six; in 1857, fifty-one; in 1858, sixty-nine; in 1859, forty-eight; in 1860,

forty-one." There remains in prison Nov. 30, 1860, one hundred and twelve, who were employed as follows; viz.,

Shoemaking,	34,	Washers,	2,
Blacksmithing,	10,	In solitary,	1,
Carriage-making,	43,	Waiters,	2,
Tailoring,	6,	Lumpers,	9,
Cooks,	2,	Sick in Hospital,	2,

112

The amount received per day for their labor varies from seventeen to thirty cents.

The crimes for which they were committed were as follows:

Larceny,	48,	Robbery,	2,
Burglary,	9,	Uttering forged order,	2,
Adultery,	3,	Robbing the mail,	2,
Murder,	3,	Rape,	2,
Arson,	10,	Bestiality,	1,
Assault to ravish,	3,	Shop-breaking,	7,
Assault to kill,	5,	Enticing to burn,	1,
Perjury,	1,	Manslaughter,	2,
Felonious assault,	1,	Conspiracy to cheat,	1,
Forgery,	2,	Incest,	1,

112

The expense to the State of maintaining the prison for the year was \$7230.34 over the amount earned by the labor of the convicts. The whole cost to the State of the prison for thirty-five years, including 1858, was \$321,740, which embraces the cost of the building.

Mr. Blaine, appointed on a commission to examine the prison in 1858, made a report in 1859, in which for economical and other purposes he urges the erection of a new prison in a more favorable location. He says: "In Maine the average annual cost per convict, including salaries of officers, is \$200," which is much more than in any other State." The cost of subsistence in 1857, he says was \$71.92 for each prisoner. He was of opinion that the Institution ought to be self-supporting. The legislature did not adopt his recommendation, and the old prison, unimproved, remains at Thomaston.

#### FINANCES.

The public debt of the State including trust funds, on the first day of Jan., 1861, was \$942,446. The permanent trust funds are \$342,946, the remainder matures from year to year until 1881. To this must be added the war debt contracted in 1861, amounting to \$800,000, all, or most of which, will be re-imbursed by the National Government. A loan of \$1,300,000 was authorized by the legislature for this purpose.

The receipts into the treasury in 1860, were \$452,276, which included a loan and the premium \$54,466.

One-half of the receipts was derived from taxes.

The expenditures were \$411,000, of which \$50,500 were on the State debt, and \$40,925 for interest.

The public lands are an annual source of income to the State. They were valued in 1860, at \$2,284,986, and embraced 8,473,861 acres.

The State tax assessed in 1861 was \$258,654.88.

## BANKS.

The number of Banks in Maine, in June, 1861, was seventy-one, whose condition appears in the following table :

Capital,	\$7,783,000	Real Estate,	\$235,696.89
Bills in circulation,	4,061,692	Bills of other Banks,	271,498.60
Deposits,	3,023,202.45	Balances due from other	
Net profits on hand,	585,275.49	Banks,	1,491,560.70
Gold and Silver,	667,433.11	Loan,	12,776,971.64

The average dividend of these banks is about seven per cent., per annum. They pay a tax to the State of one per cent on their capital.

There are fourteen Savings Institutions in the State, having funds amounting in the aggregate to \$1,525,946, deposited by 9245 persons. Nearly half a million of this amount is in the two banks in Portland.

In Massachusetts the total amount of deposits is forty-seven millions. In the two cities of Brooklyn and New York the amount, is thirty-five millions. The total amount on deposit in the State of New York, Jan. 1st, 1861, was \$67,440,397. One person in thirteen of the entire population is a depositor.

## COMMERCE.

The high commercial character of Maine has been gained by the peculiar features of its territory. Its whole line of coast for two hundred and fifty miles on a direct line from Piscataqua River to Eastport, and following its indentations about three thousand miles, is interspersed with numerous safe and commodious harbors, estuaries, and islands. The forests of the State have furnished for over two hundred years, not only the wood for the construction of ships, but materials for the pursuits of commerce ; her various manufactures of lumber, lime, and slate have found ready markets, while with the ample products of the sea, and the tillage of her soil, have established a source of foreign and domestic trade which has greatly enriched her people. Before a colony was founded on the coast, a very large and profitable trade was carried on in the fish and fur business ; and the earliest settlements were distinguished by considerable shipments of lumber, fish, and furs to Europe and the West Indies.

These operations have never ceased from the planting of the first colony to the present day, and Maine now stands the first in the Union for her contribution to the annual tonnage of the country, and the fifth in the employment of it.

In 1856 the number of vessels built was 316, having a tonnage of 149,908 tons. In 1857, the number was 240, with a tonnage of 110,933 tons. The next year there was a great falling off in consequence of the panic, and revulsion in business, and the number of vessels that year built in Maine was but 167, with a tonnage of 55,959 tons ; these consisted of 56 ships and barques, 28 brigs, 77 schooners, 6 sloops and steamers. The same year in New York, the second in tonnage of new vessels, the amount was 37,186 tons ; and in Massachusetts 32,599 tons. In 1860, the number of vessels built was 172, having an aggregate tonnage of 57,868 tons. The tonnage owned in Maine in 1860, was 803,071, or about 17 per cent of the whole tonnage of the United States, which in that year was 5,353,868 tons.

The exports and imports for four years will be seen by the following table:

1856,	Exports,	\$2,963,041,	Imports,	\$1,940,773,
1857,	"	3,716,586,	"	2,664,332,
1858,	"	2,862,059,	"	1,858,392,
1860,	"	3,669,555,	"	1,716,075,

The transportation of this merchandise employed from ten hundred to fourteen hundred vessels annually, with an average tonnage of 214,000; giving Maine a high rank among the States for commercial importance.

The annexed table shows the part which each collection district bore in the commerce of 1860.

COMMERCE OF MAINE FOR YEAR ENDING JUNE 30, 1860.

RAILROADS.

The length of railroads in the State is 492 miles, single track, of which 230 miles is on a guage of five feet eight inches, the remainder four feet ten inches. The Grand Trunk Railway crosses Maine from Portland, a distance of eighty miles, then passing across New Hampshire and Vermont, extends on through Canada to Lake Huron and Detroit, a distance of nearly one thousand miles, where it connects by steamers on Lake Huron, and by railways at Detroit with the great railways which intersect the valley of the Mississippi.

The whole cost of the railways in Maine has been \$20,000,000.

These roads extend 175 miles from the western border at Portsmouth, easterly to Milford, and in the interior across the State northwesterly by the Grand Trunk, and northerly to Farmington and Skowhegan by the Androscoggin, and the Kennebec and Somerset roads — thus furnishing ample facilities for internal communication and traffic to the principal portions of the territory. They have greatly enhanced the value of property through which they pass, and to which they extend. The following table presents the statistics of these roads for 1860 :

Names of Roads.	Length in Miles.	No. of Stations.	BUSINESS.		RECEIPTS.		For Mails &c.
			No. of Pas-sen. carr'd.	Tons of Freight.	For Pas-sengers.	For Freight.

SUNDAY SCHOOL STATISTICS.

From a report of the proceedings of the Sabbath School Teachers' Convention, held in Portland in June, 1869, we glean the following items. The Convention was held in the Chestnut Street Methodist Church, was very numerously attended by delegates from every part of the State. The statistics given do not include all the schools of the State—many not being represented or reported.

COUNTIES.	How many Teachers.	How many Scholars.	How many over 21.	Average attendance	Teachers' Meetings.	Mon. conc't	How many convers'ns.	Continued for year.	Amount of Contrib'ns.

# WILLIAMS & ORVIS'S

UNEQUALED DOUBLE-THREAD

\$25

## FAMILY SEWING-MACHINES.

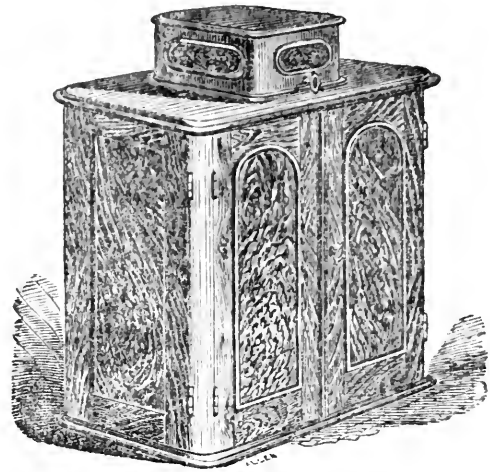

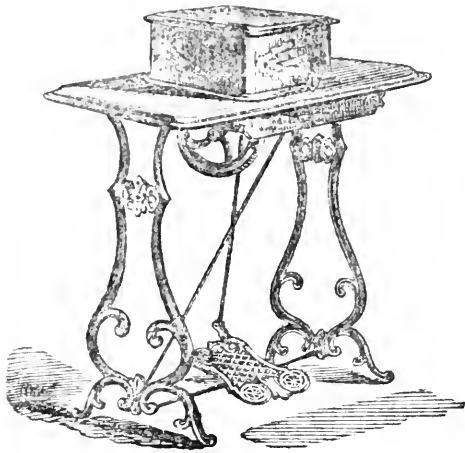

No. 323 Washington Street,

**BOSTON.**

The superiority of our Sewing-Machines consists in combining **CHEAPNESS** with **EXCELLENCE**, **DURABILITY** with **SIMPLICITY**, and **NOISELESSNESS OF ACTION** to a degree not approached by any other Machines.

The best proof of this superiority is the reduction in prices which our Machines have compelled all other manufacturers to make. During the three years that we have been in business, the Grover & Baker Co., Wheeler, Wilson & Co., Singer & Co., and all other responsible manufacturers, have reduced the price of their *cheapest warranted* Machines from \$75 to \$40. Here is a reduction of \$35 on the cost of their *cheapest* Machines, notwithstanding their constant prior assertions, that a good and reliable Sewing-Machine could not be made for less than \$75.

(SEE NEXT PAGE.)

\$30  
 Silver-plated, on plain table, \$35  
 Silver-plated, on carved table, 40  
 Silver-plated and pearled, 45

\$50  
 Pearled, in plain cabinet, \$60  
 Pearled, in carved cabinet, 65  
 In Mahogany and Rosewood the cost will be from \$75 to \$87.

We have demonstrated to the public that as good a Machine, for all practical uses, can be made for \$25 as for \$150 ; and the aforesaid manufacturers have been compelled to take the hint.

Now, had our Machines been inferior to any in the market, they would not have met the public want, and consequently would not have compelled such a reduction of prices.

Then let the public remember, that it is the WILLIAMS & ORVIS Machines which have done this good service. Let it remember, too, that our Machines are still the BEST, and are \$15 cheaper than the cheapest of any other responsible manufacturers.

Let it remember that if costly Machines are wanted, we make them,—equal in style and finish to those of any other makers. But good faith requires us to say, that so far as respects the practical uses of a Sewing-Machine, our \$25 Machines are just as good, and just as reliable, as any Machines, which either we ourselves, or anybody else can make. We have just brought out new patterns and styles, with important improvements, to which the attention of purchasers and dealers in Sewing-Machines is invited.

Machines are put up on plain tables, in half case, or in full cabinet, in walnut, mahogany, and rosewood, as shown in the accompanying cuts.

Our Machines make the "double-loop stitch," sometimes called the "Grover and Baker stitch," which is preferable for family use to the "double-lock stitch," "shuttle stitch," or "Wheeler and Wilson stitch," as it is sometimes called,—

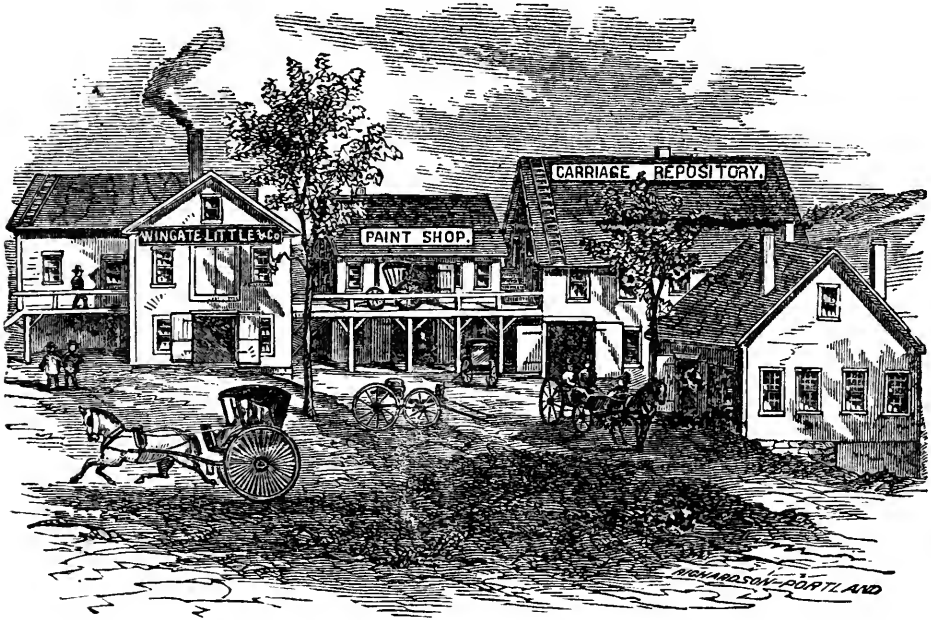

1. Because it is stronger and more durable.
2. Because its right or face side is incomparably handsomer than that of the lock-stitch, while the reverse is fully as handsome as the reverse of that.
3. Because it is elastic, yielding or giving with the material sewed. The lock-stitch is non-elastic and non-yielding.
4. Because it is a fast stitch, and will not rip, though every fourth stitch be cut. The lock stitch will rip if once broken.
5. Because, while it is a fast stitch, it is also susceptible of being taken out with great facility, in case it is required, as in altering garments.
6. Because it is the only stitch which dressmakers can use, in running up the skirts of dresses, and is universally used by them.
7. Our Machines will run, gather, fell, hem, tuck, and embroider, and will do all that any other Machines do.

All Machines warranted, and kept in repair one year without charge.

The attention of Shippers is specially asked to our Machines. Agents wanted for the United States, Europe, and South America.

Salesrooms at 323 Washington St., Boston, & 164 Race St., Cincinnati.

**H. G. NEWTON, M. D.,**  
**Eclectic Physician & Surgeon,**  
**PORTLAND, MAINE.**

Dr. N., who was formerly Editor of "*The Worcester Journal of Medicine*," and has for several years been engaged in the successful practice of his profession, devotes his attention to, and solicits for treatment, the worst possible cases that can be found in the community.

He can if desired exhibit testimonials from people of undoubted truth and veracity, certifying to his perfect success in the most hopeless cases of disease, many of whom had sought in vain for relief from others. Although so fortunate

**As never to have lost a case of Fever of any kind,**

yet his special attention for the last eight years, has been devoted to a

**NEW, SAFE, AND NEVER FAILING MODE**

of treating diseases incident to the female system, by which he has acquired a high reputation. There are many cases of disease and suffering, which invalids suppose they must bear, and which must soon lead to an early grave, if neglected, that might be removed by a timely adoption of his rational and scientific mode of treatment. He subjects his patients to no injurious medication, using no preparation of Mercury, Antimony, nor Arsenic, but making a judicious selection of such remedies as are both innocent and sanative, and specifically adapted to each individual case.

All letters with a stamp enclosed will receive prompt and explicit answers, and be regarded as strictly confidential. Boarding places procured for patients from a distance if desired.

# Cahoon's Broadcast Seed Sower, FOR SOWING

WHEAT,

HEMP,

GRASS

OAT,

BARLEY,

Seeds, &amp;c.,

The Hand Machine sows from four to eight acres per hour, and the Horse-Power Machine, from ten to fifteen acres per hour, doing the work in a very superior manner. This Machine is unquestionably to the agriculturist, one of the most important and valuable inventions of the day. It is made in a SUBSTANTIAL AND DURABLE MANNER, and by RECENT IMPROVEMENTS has been brought to the HIGHEST PERFECTION. It saves four-fifths of the labor and time—enables any one, with a little experience, to sow with perfect regularity—and in consequence of the evenness with which it distributes the seed, causes a saving of from one-quarter to one-third of the seed ordinarily required. Farmers who have used this machine for two seasons say they would not be without one for FIVE TIMES ITS COST.

Liberal inducements to dealers. For Circulars and Terms to the trade, address

148 & 150 Middle Street, Portland, Me.

**MAGEE PARLOR STOVE.**

Which for economy, purity of air, ease of management, has no equal. They can be regulated so as to give *any amount of heat required*; and unlike all other Anthracite Coal Burners, they ventilate the apartments quite as thoroughly as a wood fire, or open Franklin, *producing a current of air* at once moist, pure and agreeable. As none of the air which comes in contact with the Fire-Pot is used for respiration, the tendency to produce Headaches, so much complained of by those using Stoves and Furnaces, is entirely obviated. The fire may be continued throughout the entire season without once going out, and from one to four days without replenishing. These Stoves are beautiful in design, and finished in the most perfect manner. They give universal satisfaction to all who have adopted them.

**J. L. HOWARD.**

Also, Manufacturer of and Dealer in Furnaces, Ranges; Office Parlor, Cooking Stoves, &c. Also, Dealer in Pumps, Lead Pipe, Sheet Lead, all kinds of Tin, Copper, and Sheet Iron. Job Work done to order.

**J. D. CHENEY,**  
MANUFACTURER OF  
**MELODEONS AND HARMONIUMS,**  
No. 135 1-2 Middle Street, Portland, Maine.

Harmoniums with two banks of keys of 4 1-2 octaves each, four full sets of reeds, and 1 1-2 octaves in pedals. It has ten stops, or registers, and includes all the varieties of the \$1000 PIPE ORGAN.

The regular organ swell is attached to this instrument, by which the effects of crescendo and diminuendo can be rendered at the performer's will. The case is made of the best solid black walnut, and finished with oil.

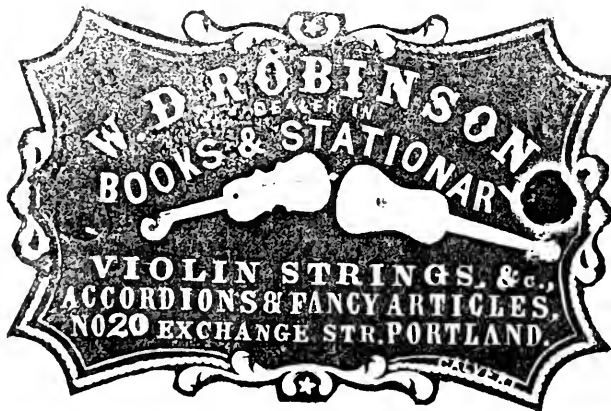

**TESTIMONIALS.**

PORTLAND, Feb. 4, 1861. Mr. J. D. Cheney: I take pleasure in commending to the public the Musical Instrument manufactured by you in this city, and called the "Harmonium." One of them has been in use in the "Second Universalist Society," occupying the "Mechanics' Hall," for nearly a year, and has given entire satisfaction to the congregation. The Instrument is finely adapted to all country churches, *being preferable in tone and power* to any small sized church Organ of the common style, while the price is less than one-half as much.  
Z. THOMPSON, Pastor of the 2d Univ. Society in Portland.

GORHAM, Feb. 23, 1861. From a personal acquaintance with the above described Instrument, I take pleasure in adding my testimony that all which is therein stated is strictly true.  
JOSEPH COLBY, Pastor of the M. E. Church, Gorham, Me.

PORTLAND, March 25, 1861. Mr. Cheney: In answer to your inquiry, whether the Melodeon made by you for Masonic Hall gives satisfaction, I am glad to be able to say, that so far as I have heard, all are well satisfied with it; and in my own judgment it is one of the best instruments of the kind which I have heard.  
Truly yours,  
IRA BERRY.

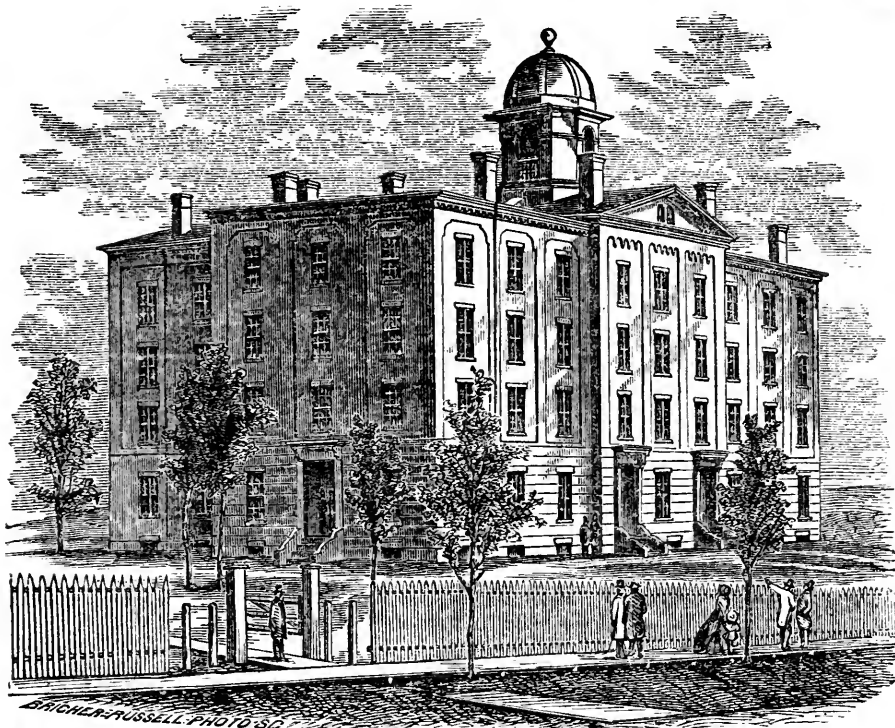

PORTLAND, January 10, 1857. Mr. Cheney: Having been well acquainted with the Instruments from your shop, I cheerfully give you my opinion of their merit. They are unquestionably of the first class of Reed Instruments, both in quality of *tone*, and thoroughness of *manufacture*. I am acquainted with those made in most other shops in the country, and have devoted much attention to such matters; but I would prefer one of your Instruments in my family to any others whatever. And I would say the same for churches.  
Yours truly,  
A. WILLEY.

**CROCKERY, GLASS, and CHINA WARE,**  
AT WHOLESALE AND RETAIL.

Crockery, Glass and China Ware, Lamps, Spoons, plated and others, Plated Forks, Cutlery, Britannia and Tin Ware, Fancy Goods, Kerosene Oil, &c.

We import directly from the best European Manufactories, and such goods as will prove profitable to the consumer. Country traders, hotel keepers and others will find our assortment large and the prices satisfactory.  
**STEELE & HAYES, 110 Middle St., Portland, Me.**

# MAINE WESLEYAN SEMINARY,

AND

# Female Collegiate Institute.

## BOARD OF INSTRUCTION :

- REV. HENRY P. TORSEY, LL. D., President, and Professor of Mental Philosophy and Natural Science.  
 REV. FRANCIS A. ROBINSON, A. M., Professor of Mathematics.  
 ALBERT A. SCOTT, A. M., Professor of Ancient Languages.  
 JOHN PERLEY, Professor in Commercial Department.  
 MISS SARAH H. PALMER, Preceptress, and Teacher of German and Music.  
 MRS. MARY F. SCOTT, Teacher of French.  
 MISS PHRONIE B. ROBINSON, Teacher of Drawing and Painting.

A COLLEGIATE COURSE OF STUDY FOR YOUNG LADIES has been established, embracing most of the branches taught in male colleges, requiring three years for its completion. Young ladies who complete the course will receive a diploma.

The Institution is situated on Kent's Hill, three miles from the Readfield depot, and on the stage road from Augusta *via* Fayette to Farmington. A carriage is always in readiness on the arrival of the cars at the depot to convey passengers to the Hill. (Price 25 cents.)

The location is uncommonly healthy, and free from vicious and disturbing influences, and remarkable for its beautiful scenery. The Seminary and Collegiate Building is one of the finest and most convenient in the country. The grounds are tastefully arranged, and afford ample opportunity for healthful recreation. Physical, as well as moral and intellectual culture, receives the special attention of the teachers.

Students, who choose it, board in the collegiate building with the teachers. The price of board, including use of furnished room, fuel, lights and washing, is usually about \$2.00 per week for a term! The entire expenses are exceedingly low. Number of students during the last year, 426. The academic year consists of three terms of thirteen weeks each.

The Fall Term commences the 2d Monday of August.  
 " Winter " " " last Monday of November.  
 " Spring " " " 2d Monday of March.

For particulars send for a circular. Post-office address, "Kent's Hill."

# Greenleaf's Mathematical Series;

Permanent Electrotype Editions.

FOR DISTRICT SCHOOLS.	For HIGH SCHOOLS & ACADEMIES.
New Primary Arithmetic.	National Arithmetic.
Intellectual Arithmetic.	Treatise on Algebra.
Common School Arithmetic.	Elements of Geometry & Trigonometry.

The Last of the Series, (just published), is a new edition of the **ELEMENTS OF GEOMETRY**, with the addition of a Complete System of Plane and Spherical **TRIGONOMETRY**, analytically treated and practically applied.

*Greenleaf's Geometry has been adopted as a text-book in several of the STATE NORMAL SCHOOLS, and in upwards of sixty Academies in New England alone.*

These books, in their revised and improved form, have been pronounced, by an eminent mathematician,

**“Standard and imperishable works of their kind,”**

Being a consecutive series by one author, graded to the wants of Primary, Intermediate, Grammar, and High Schools, Academies, Normal Schools, and Commercial Colleges, now so extensively used in the best schools of every State in the Union as to have become

## A NATIONAL STANDARD.

This series, in its revised and improved form, surpasses all others,—

1. *In the lucid, progressive, and strictly philosophical ARRANGEMENT of the several parts and subjects.*
2. *In the clearness and conciseness of the DEFINITIONS and RULES, and in the completeness of the ILLUSTRATIONS.*
3. *In the logical strictness and simple elegance of its ANALYSIS.*
4. *In the variety and practical character of the PROBLEMS; which, from their nature, tend to interest the pupil, exercise his ingenuity, and secure useful mental discipline.*
5. *In the scientific accuracy of all its statements of facts.*
6. *In being a CONSECUTIVE SERIES, graded to the wants of PRIMARY, INTERMEDIATE, GRAMMAR, and HIGH SCHOOLS, ACADEMIES, NORMAL SCHOOLS, and COMMERCIAL COLLEGES; it having been found that less than FOUR BOOKS on Arithmetic cannot be successfully used for FOUR GRADES of schools; and that the Algebra, Geometry, and Trigonometry in a mathematical course should be by the author of the Arithmetics, in order to follow most advantageously as a part of the same system.*
7. *In the neat and durable MECHANICAL EXECUTION of the several books,—an important consideration, too often disregarded,—and in the CHEAP prices at which they are sold.*

 GREENLEAF'S ARITHMETICS are now in general use, and with great satisfaction, in all the Common Schools and Academies in MAINE, so that UNIFORMITY, which is so desirable in school text books, has been secured throughout the State. It is also about the only Arithmetical series which is now used in Massachusetts and the other New England States.

 Terms of introduction liberal; all interested are invited to correspond freely with us.

OUR DESCRIPTIVE CATALOGUE furnished to Teachers and School Directors, on application by mail.

**ROBERT S. DAVIS & CO., Publishers, Boston.**

**Sold by SANBORN & CARTER, Portland, Me.**

**"IT HAS STOOD THE BEST OF ALL TESTS,**

And has sustained its reputation for FORTY YEARS. Physicians of the highest respectability prescribe it, and thousands of families keep it on hand as a *Standard Family Medicine*.

**The Vegetable Pulmonary Balsam,**

prepared by the well known druggists, Messrs. Reed, Cutler & Co., is, we have good authority for saying, one of the best remedies for

**Coughs, Colds, and all Pulmonary Complaints,**

ever offered to the public."—*Boston Journal*.

REV. DR. LYMAN BEECHER writes,—“Gentlemen: I have used your VEGETABLE PULMONARY BALSAM myself with benefit, and have known it to be used with good effect in families around me.”

THE LATE REV. DR. LEONARD WOODS wrote,—“Gentlemen: *From a long use of your Vegetable Pulmonary Balsam in my family circle and among theological students, I have been led to regard it as a safe and efficacious medicine.*”

“Gentlemen:—We, the undersigned, Wholesale Druggists, having for many years sold your Vegetable Pulmonary Balsam, are happy to bear testimony to its great efficacy in the relief and cure of Pulmonary Complaints. We know of no medicine which has deservedly sustained so high a reputation for so long a term of years, or which more rarely disappoints the reasonable expectations of those who use it.”—[Signed by many of the *largest and oldest* Druggists in the U. States and Canada.]

“Gentlemen:—In an extensive practice of myself and sons, we have prescribed large quantities of your Vegetable Pulmonary Balsam, and are happy to say have found it an efficient and reliable remedy. We consider it invaluable. D. T. PARKER.”

Farmington, N. H., Dec. 16, 1859.

*Beware of Counterfeits and Imitations!!!* Inquire for the article by its WHOLE NAME, “VEGETABLE PULMONARY BALSAM.”

Prepared only by REED, CUTLER & CO., Druggists, Boston, Mass., and sold by Apothecaries and Country Merchants generally. Price, large size, \$1; small size, 50 cents. For sale by dealers generally.

# UNION for the sake of UNION!!

While many are doing their utmost to promote dissension and discord,

**A. PARSONS,**

is determined, by the aid of his friends, to do what he can to Sustain the Union! He has opened a new Store, three doors north of the Post Office, Gardiner, Me., externally distinguished by its colors, and internally by its contents, as THE UNION STORE! His stock consists of Hats, Caps, Furs, and everything pertaining to a First Class Hat Store. In addition to this, he has a fine assortment of

**BOOTS, SHOES, AND RUBBERS,**

for Ladies', Misses' and Children's wear. He has the agency for the sale of the Best and Cheapest Watch Spring Skirts, Ladies', Misses' and Children's sizes. Also, Balmorals, Knit Skirts, Jackets, under Vests and Corsets, Embroidered Collars and Sleeves *unusually cheap*, Edgings, Rufflings, Linen Hdkfs., *very cheap*, Hosiery, Gloves, Combs and Brushes of all kinds, Pins, Needles, Perfumery and a great variety of useful and ornamental articles for the toilet, &c.

**Gentlemen's Furnishing Goods,**

Consisting of fine French Shirts, Collars and Bosoms, Under-shirts and Drawers, very cheap; Socks, Gloves and Mittens, Pocket Hdkfs., Cravats, Scarfs, Stocks, Suspenders, &c. Also, Trunks, Valises, Satchels, and Umbrellas. Having secured the services of MR. SYLVANUS HATHAWAY, long and favorably known as one of the best furriers in this part of the country, we shall manufacture and keep on hand all kinds of Fur Goods, which will be sold at prices to correspond with the times. Ladies having furs that they wish manufactured or altered to the modern styles, can have them done in the neatest and best manner, and on very moderate terms, at short notice. Mr. Parsons hopes in this new branch of business to merit that confidence and patronage which has heretofore been so liberally accorded him in another branch of trade, and which he does not leave from choice but necessity.

**STATE NORMAL SCHOOL for Sagadahoc Co.,**  
**AT RICHMOND, MAINE.**

—*s*—  
**ALFRED LAWS, A. M., Principal,**

ASSISTED BY A FULL AND EXPERIENCED BOARD OF TEACHERS.

—*s*—

This Institution is located at a pleasant village on the Kennebec River, sixteen miles below Augusta and forty from Portland. It is accessible by Railroad (Portland & Kennebec), and except winters, by numerous steamboats running to Boston, Portland, &c.

The Academy Buildings are new, commodious, and fitted up with the various modern facilities. Students will study at the School-rooms or at their own rooms, at the option of their Parents or Guardians.

Two courses of Study have been adopted, either of which those desiring can complete, and graduate on satisfactory examination. The Scientific embraces a liberal course in Mathematics, Natural and Moral Science; the Classical, a thorough fitting for College. Superior facilities are offered those preparing to teach. Frequent Lectures will be delivered before the School, as the studies pursued may dictate.

C A L E N D A R .

Fall and Winter Terms commence First Monday in September and December.

Spring and Summer Terms, Third Monday in February and May respectively.

Board in private families at reasonable rates. Ample facilities for self-boarding.

For further information address the Principal.

# JOSEPH DITTO & CO'S

## PATENT MICA AND FIBROUS

# CEMENT ROOFING,

### No. 207 Broadway, New York.

In view of the favorable reputation which their Improved Patent Roofing has gained, and the *entire satisfaction* it has given to all who have adopted it, we would with renewed confidence offer it to the public as a material unequalled for Durability, Beauty, and Cheapness by any composition in use. It has been thor-

oughly tested in New York city, and various parts of the United States, the Canada, and the Island of Cuba, by Architects, Builders, and others, and is pronounced a most valuable improvem't on any Roofing yet invented. The experience of years has proved it to be a *perfectly reliable* Fire and Water-proof

article, and has demonstrated the fact that a Composition Roofing can be made which *will successfully resist the action of the Weather and Elements*. We sell our Roofing Cement at eighteen dollars per bbl., containing about 40 gallons, and weighing 480 lbs. One barrel cement will cover 1200 square feet in making an entire (or new) roof, and the same when applied upon old shingle roofs; but when applied to Tin, Zinc, or Iron, it will cover from 2700 to 3000 square feet. We sell our prepared Mica at two dollars per bbl., weighing about 230 lbs., and one bbl. of Mica to every bbl. of cement is sufficient when applied to new roofs, or upon old shingle roofs; but when applied to Tin, Zinc, or Iron, two bbls. of the Mica to every bbl. of Cement will be required. At the above named prices for materials, it will cost (including also all the expenses for labor, etc., to apply it) 4 1-2 cents per square foot upon new roofs; 3 1-2 cents per square foot upon old shingle roofs; and about 3 1-4 cents per square foot when applied to Tin, Zinc, or Iron.

*N. B. Also for sale, Territorial Rights for a portion of the United States.*

No. 207 Broadway, New York.

# FISH and SALT.

For *fifty* years our senior partner has been engaged in the purchase and sale of the above named articles.

Supplying some 200 vessels with their outfits, we receive *direct from the Fishermen* our stock of Fish, thus affording us an opportunity of offering the article to our customers at the *lowest price*.

We also purchase all our Salt by the *car*, and for the better accommodation of this part of our business, we are now erecting a warehouse, which will hold 100,000 bushels of Salt, and with such arrangements that we can deliver *car loads without charge of trucking*. When purchased from vessel, government measure will be given.

When discharging from ship, we send our customers who request it, a circular.

Our usual stock in store is as follows :

## FISH.

300,000 lbs. Large Cod ;  
 100,000 lbs. Medium Cod ;  
 200,000 lbs. Pollock ;  
 200,000 lbs. Hake ;  
 5000 boxes Herring ;  
 1000 bbls. Mackerel ;  
 Tongues and Sounds ;  
 Napes and Fins, &c., &c.  
 100 bbls. Tanners' Oil.

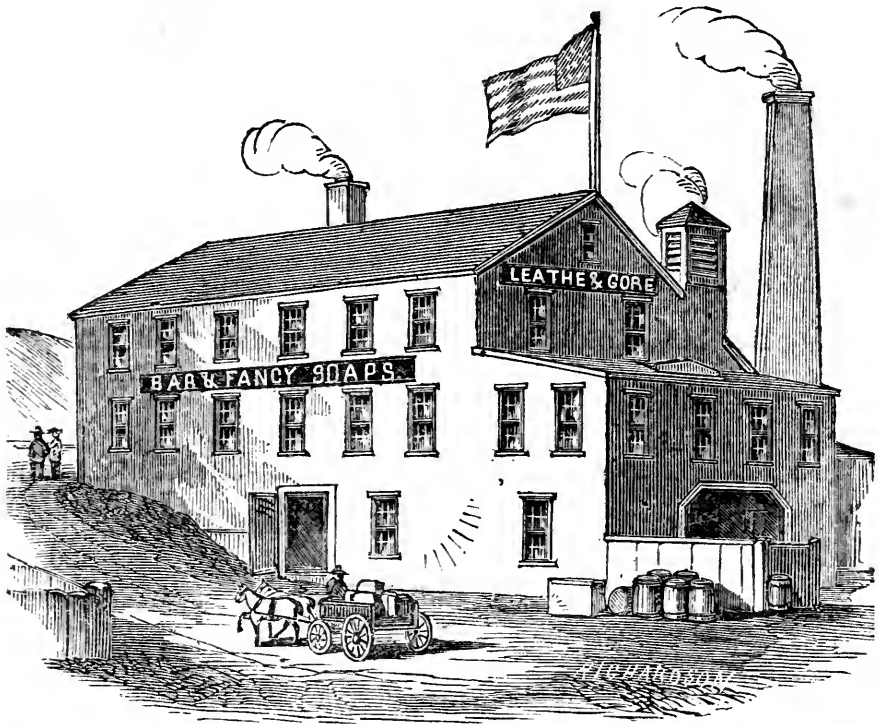

## SALT.

40,000 bush. Turks Island Salt ;  
 40,000 bush. Liverpool Salt ;  
 1000 bags Liverpool Salt ;  
 2000 bags Ground Butter Salt.

# GORHAM SEMINARY,

## CORHAM, MAINE.

By an Act of the last Legislature, the "MAINE FEMALE SEMINARY" and "GORHAM MALE ACADEMY" have become one Institution, now known by the above title.

The Seminary building will be, as heretofore, a boarding-house for young ladies, as the union is to affect only recitations and other general exercises of the Institution.

Preparatory to this arrangement the Seminary has been thoroughly repaired—newly painted and papered, and put in the most attractive order.

The Building is heated entirely by furnaces, from which hot air is taken to each room separately, thus obviating the inconvenience of stoves, and securing a more equal and healthy temperature.

The School Year of this institution is divided into four terms of eleven weeks each.

### BOARD OF INSTRUCTION.

AGENTS FOR THE SALE OF

## Coe's Improved Super-Phosphate of Lime.

The sale of this valuable Fertilizer has increased from year to year, and during the past season upwards of 300 tons have been sold in this market. Its superior fertilizing effects, and its adaptedness for the advancement of crops (particularly Corn, Potatoes, and Garden Vegetables), render to it the merit of being the best and most economical manure used. It is also highly beneficial for Grass and Grain Crops. Also useful in destroying Bugs and Worms, which are hidden in the ground, and which so often prove destructive to crops. It is put up in strong bags, of 125 pounds each.

Circulars containing numerous testimonials from practical and reliable parties, with full directions for use, furnished on application to

**At 7.30 A. M. ; and 3 P. M., in Summer, and 2.30, in Winter.**

The 8.45 A. M. Train, from Portland, connects at *Great Falls* with the Cars of the Great Falls and Conway Railroad, for Rochester, Milton, and Union Village, and Stages for Milton Mills, Wakefield, Ossipee, Conway, etc.; and at *Dover*, with the Cars of the Cocheco Railroad, for Rochester, Farmington, Alton, and Alton Bay; and with Steamer *Dover*, in Summer, on Lake Winnipiseogee, for Wolfboro', Center Harbor, and Meredith Village, with Stages from Center Harbor for Conway and White Mountains.

The morning Train from Portland also connects, at *Newmarket Junction*, with the Concord and Portsmouth Railroad, and at Bradford, Mass., with the trains of the Newburyport Railroad, at Lawrence, directly with trains for Manchester, Lowell, and Nashua, and all parts of New Hampshire and Vermont; at *North Andover*, with trains for Danvers and Salem. The 3 P. M. in Summer, and 2.30 P. M., in Winter, Train, from Portland, makes all the Railroad connections as above, but not direct with Stages for remote places. The 7.30 A. M. Train, from Boston, connects directly with all the trains out of Portland, east, and runs directly into the Grand Trunk Railroad Station, at Portland, avoiding all annoyance and expense of hack hire.

On Saturdays, passengers by the 3 P. M., in Summer, and 2.30 P. M., in Winter, Train, from Boston, go as far as Augusta same night.

The following Railroads connect with the Boston & Maine Railroad, viz. :

The Danvers Railroad and the South Reading Branch at *South Reading Junction*; the Salem and Lowell Railroad at *Wilmington Junction*; the Concord, Manchester, and Lawrence, and Lowell and Lawrence Railroads, at *Lawrence*; the Essex Railroad at *North Andover*; the Newbury Railroad at *Bradford*; the Portsmouth and Concord Railroad, at *South Newmarket Junction*; the Cocheco Railroad at *Dover*; the Great Falls and Conway Railroad at *Great Falls*; the Portland, Saco, and Portsmouth Railroad at *South Berwick Junction*; and the Grand Trunk, Androscoggin and Kennebec, and Kennebec and Portland Railroads, at *Portland*.

## PORTLAND AND BOSTON LINE.

The splendid new sea-going Steamers **FOREST CITY**, **LEWISTON**, and **MONTREAL** will, until further notice,

Leave Atlantic Wharf, Portland, every Monday, Tuesday, Wednesday, Thursday and Friday, at 7 o'clock P. M., and Central Wharf, Boston, every Monday, Tuesday, Wednesday, Thursday, and Friday, at 7 o'clock P. M.

**Fare, in Cabin, \$1.25; on Deck, \$1.00.**

N. B. Each boat is furnished with a large number of state-rooms, for the accommodation of ladies and families; and travelers are reminded that by taking this line, much saving of time and expense will be made, and that the inconvenience of arriving in Boston at late hours of the night will be avoided.

The boats arrive in season for the passengers to take the earliest trains out of the city.

The company are not responsible for baggage to an amount exceeding fifty dollars in value, and that personal, unless notice is given and paid for at the rate of one passenger for every \$500 additional value. ☞ Freight taken as usual.

**L. BILLINGS, Agent.**

## Portland and New York Steamers,

The splendid and fast Steamship "**CHESAPEAKE**," Capt. Sidney Crowell, will until further notice run as follows:

Leave Brown's Wharf, Portland, every **WEDNESDAY**, at 4 o'clock P. M., and leave Pier 9 North River, New York, every **SATURDAY**, at 3 o'clock P. M.

This vessel is fitted up with fine accommodations for passengers, making this the most speedy, safe, and comfortable route for travelers between New York and Maine.

**Passage, \$5.00, including Fare and State Room.**

Goods forwarded by this line to and from Montreal, Quebec, Bangor, Bath, Augusta, Eastport, and St John.

Shippers are requested to send their freight to the steamer before 3 P. M., on the day that she leaves Portland. For freight or passage apply to

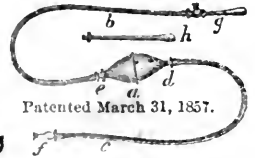

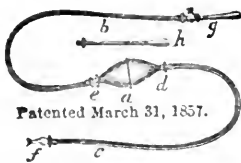

**EMERY & FOX**, Brown's Wharf, Portland.

**H. B. CROMWELL & CO.**, No. 86 West Street, New York.

## BREWER HOUSE, STROUDWATER VILLAGE, Westbrook, Me.

BY **ALEXANDER FOSS.**

Connected with the House are Billiard Rooms, Bowling Alleys, &c.

# DAVIDSON'S PATENT SYRINGE,

THE ONLY RELIABLE ARTICLE OF THE KIND IN THE MARKET,

MANUFACTURED BY

## DAVIDSON SYRINGE COMPANY,

No. 4 Warren Avenue, - - - - - Charlestown, Mass.

# THE CELEBRATED MT. ZIRCON MINERAL WATER, MILTON PLANTATION, MAINE.

### RESULTS OF ANALYSIS.

This water is colorless and transparent; it sparkles when agitated, and does not deposit any matter when it is boiled. Its action is alkaline, and the *dry* salts found in one standard gallon weigh only 2.043 grs., but in a moist state 4.215 grs. This water belongs to a class of waters almost pure, which act on the human system in consequence of the slight alkaline constituent, and the change of habit induced. It resembles the Ben Rhydding Water, Yorkshire, England.

In a standard gallon the following salts are present, considered as dry.

Sileate of Potash,.....	1.110 grains.
Sulphate of Soda.....	0.490 "
Chloride of Sodium.....	0.100 "
Crenate of Iron,.....	0.310 "
	2.010 "

When crystalized, these weigh 4.215 grains. None of the more active bodies could be found dissolved, and the gaseous matter is Atmospheric Air in part and Nitrogen in part; no Carbonic Acid. Waters of this class do always affect the functions of the Kidneys, in cases where the use of other water or food has induced derangement, and they have the character of "lightness," which allows large volumes to be drank freely. The characteristic ingredient is the Sileate of Potash.

(Signed)

A. A. HAYES, M. D., State Assayer.

The following is taken from a note accompanying the above:

DEAR SIR:—I think much of the effect of this water, in cases of diseased digestion, is due to a remarkable cleansing action it exerts, being, in fact, a very weak solution of a kind of soap of natural origin. We have too many *cured cases* to allow us to doubt that the use of this water freely relieves complaints having their origin in the kidneys. (Signed) With high regard, A. A. HAYES.

The Proprietor of this Spring, D. D. W. Abbott, has recently erected

## A FIRST CLASS SPACIOUS HOTEL,

Within a few rods of the Spring and at the foot of the Mountain, where the seeker of pleasure or health will find every convenience to promote either. The Spring, which is a boiling one, is 700 feet above the level of the sea, and the water is of the purest quality, causing some of the most remarkable cures in cases of Dyspepsia, Liver and Kidney Complaints, Salt Rhennu, Gravel, Stone in the Bladder, Scrofula, Sick Head-Ache, Costiveness, Indigestion, and all diseases arising from impurity of the Blood.

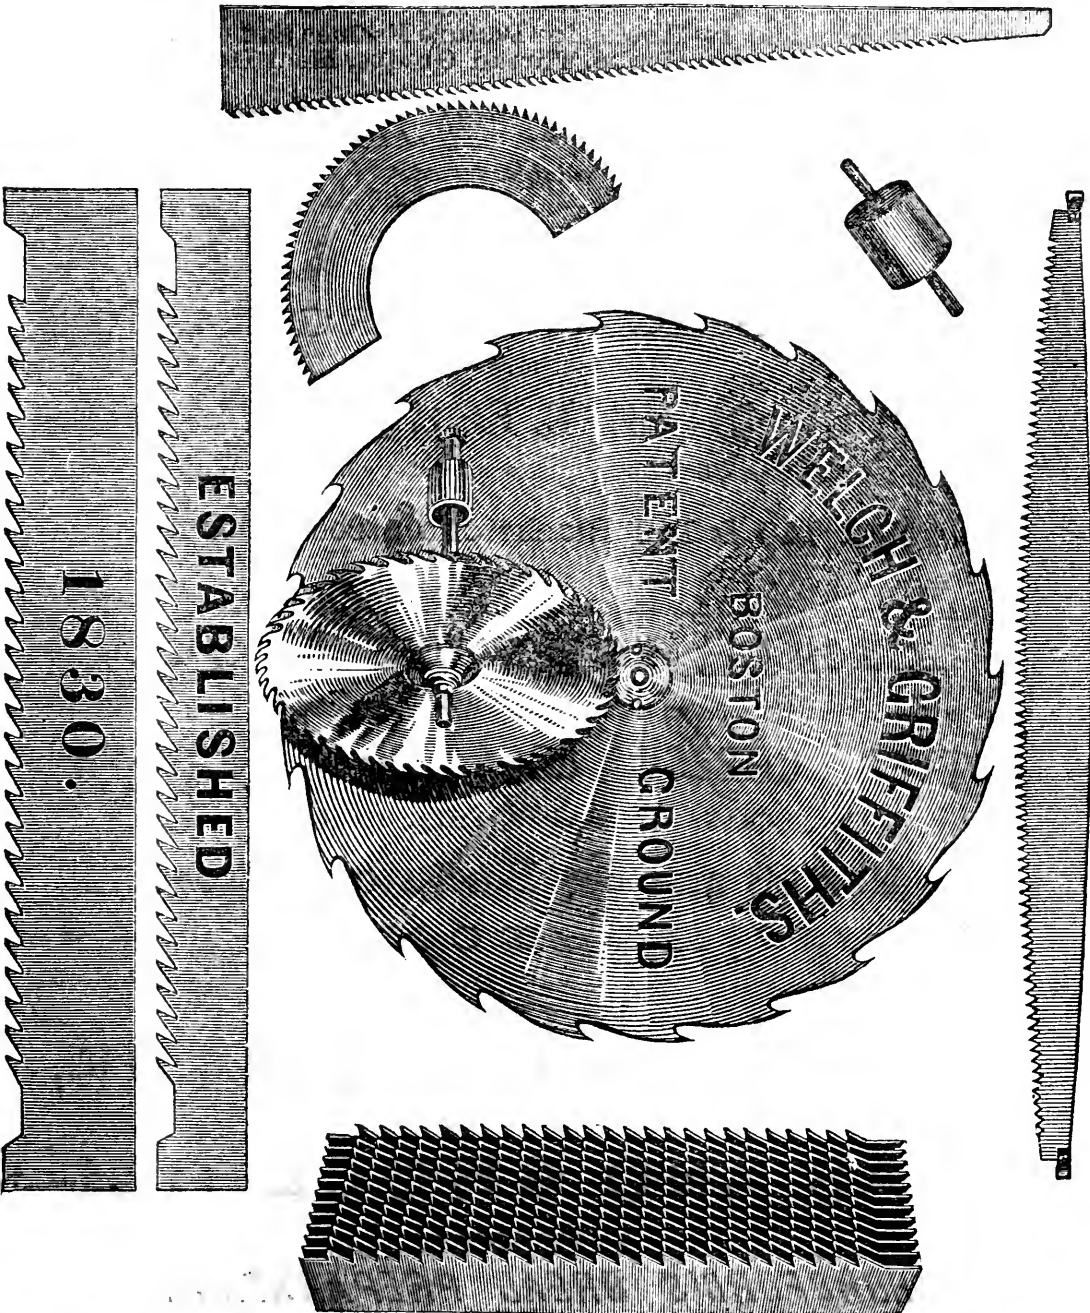

At some future day we shall publish a correct account of some of these cases, for the benefit of invalids.

~~is~~ This Water, which retains its qualities for months, can be had in Boston of

# MAYNARD & NOYES' BLACK WRITING INK.

Testimony of Parties who have used it for more than a Quarter of a Century.

REGISTRY OF DEEDS OFFICE,  
Boston, January 10, 1859. }

MESSRS. MAYNARD & NOYES—Gentlemen: I am glad that longer use of your Writing Ink enables me to repeat the testimony given in its favor many years ago. I have used it in this office thirty-seven years, and my oldest records are as legible and black as when first written. This rare quality for permanence renders it invaluable for State and County Records, and all mercantile purposes, where it is important that the writing should remain legible and unchanged in color by the lapse of time.

HENRY ALLINE, Register of Deeds.

## Maynard & Noyes' Copying Ink.

This Ink yields a copy as distinct and perfect as the original. It also combines all the properties of our writing ink, for which it can be substituted.

## Maynard & Noyes' Carmine Ink.

This article is a beautiful red or crimson color, and surpassingly brilliant and rich. It is free from sediment, and will not mould, fade, or turn dark by exposure to the air.

The above popular Inks, together with Blue, Red, Indelible, and Stencil Ink, Chemical Writing Fluid, Ink Powder, &c., is for sale by the Manufacturers,

**Nos. 51 and 53 Water Street, Boston,**

And by all Hardware Dealers and Stationers.

---

ATTENTION!

THE PINE TREE STATE!!

---

The White Pine Compound,

Prepared by Dr. J. W. POLAND & CO.,  
at Dr. P's Laboratory.

MELROSE, MASS.

---

This great and popular Remedy, originated by Dr. Poland in 1855, at Goffstown Center, New Hampshire, was at first designed only for Colds, Coughs, Hoarseness, Sore-Throat, and Diseases of the Throat and Lungs generally, for which complaints it is a certain cure. But in a few months after it was first advertised, two persons, residing thirteen miles apart, and using it for a Cough, discovered that it was a wonderful specific for KIDNEY INFLAMMATION. This discovery was reported to Dr. P. By him it was made known to the public, in consequence of which a multitude of persons in every New England State, in New York, Ohio, Indiana, Illinois, Wisconsin, Iowa, Minnesota, and in Canada, have reported themselves as cured of Kidney Complaints of the most aggravated character, including several cases of DIABETES and one of HYDROCELE. Hundreds of others have doubtless been cured, from whom no direct report has been obtained. This statement is strictly true,—that no person who ever uses the Compound expresses any other disappointment than a happy one.

A full Circular, which Dealers have who sell the Medicine, will give a better account of it than can be stated here. An autobiography of Dr. P. can also be had of them GRATIS, or of the Doctor, who will cheerfully answer enquiries free.

The People of Maine especially, know how to value the medicinal qualities of White Pine; and they may be assured (as hundreds of them already know) that Dr. Poland's Compound is a happy combination of the White Pine Bark with a few other simples (all vegetable), which forms the very best remedy known for complaints herein indicated.

GEORGE C. GOODWIN & CO., BOSTON, GENERAL AGENTS.

Sold by the Principal Medicine Dealers in Portland, Bangor, Lewiston, Saco, Bath, and in all the larger towns in Maine. Price for the present, 37 1-2 cents per bottle.

---

**DR. POLAND'S HEAD-ACHE KILLER, HUMOR DOCTOR,**

and other Preparations, are still in the market and are doing good.

☞ SEE HIS BOOK.

GREAT IMPROVEMENT IN  
**SEWING MACHINES.**

**Empire Shuttle Machine.**

PATENTED FEBRUARY 14TH, 1850.

Salesroom, 510 Broadway, New York.

This Machine is constructed on an entirely new principle of mechanism, possessing many rare and valuable improvements, having been examined by the most profound experts, and pronounced to be

**SIMPLICITY AND PERFECTION COMBINED.**

The following are the principal objections urged against SEWING MACHINES :

1. Excessive Fatigue to the operator. 2. Liability to get out of order. 3. Expense, trouble, and loss of time in repairing. 4. Incapacity to sew every description of material. 5. Disagreeable noise while in operation.

**THE EMPIRE SEWING MACHINE**

IS EXEMPT FROM ALL THESE OBJECTIONS.

It has a straight needle, perpendicular action, makes the LOCK or SHUTTLE STITCH, which will NEITHER RIP nor RAVEL, and is alike on both sides; performs perfect sewing on every description of material, from Leather to the finest Nansook, with cotton, linen, or silk thread, from the coarsest to the finest number.

Having neither CAM nor COG WHEEL, and the least possible friction, it runs as smooth as glass, and is

**EMPHATICALLY A NOISELESS MACHINE.**

It requires FIFTY PER CENT less power to drive it than any other Machine in market. A girl twelve years of age can work it steadily, without fatigue or injury to health. Its dress and wonderful SIMPLICITY of construction render it almost impossible to get out of order, and is GUARANTEED by the Company to give entire satisfaction.

We respectfully invite those who may desire to supply themselves with a superior article, to call and examine this UNRIVALED MACHINE. But in a more especial manner do we solicit the patronage of

MERCHANT TAILORS,	DRESS MAKERS,
COACH MAKERS,	CORSET MAKERS,
HOOP SKIRT MAKERS,	GAITER FITTERS,
SHIRT and BOSOM MAKERS,	SHOE BINDERS,
VEST AND PANTALON MAKERS.	

Religious and Charitable Institutions will be liberally dealt with.

PRICE OF MACHINE COMPLETE.—No. 1, or Family Machine, \$45; No. 2, Small-sized Manufacturing, \$60; No. 3, Large-sized Manufacturing, \$75.

Cabinets in Every Variety.

We want Agents for all towns in the United States, where Agencies are not already established, to whom a liberal discount will be given, but we make no consignments.

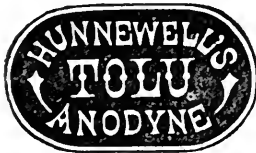

T. J. McARTHUR & CO., 510 Broadway, New York.

The above line of preparations are controlled by a perfect respect to all the true theories of medicine, and by their origin and splendid results, it is hoped that all readers of this valuable work may overlook all prejudices of bad experience, and test them as coming from those perfectly acquainted with the profession, and with perfect freedom. The first is

which performs its cures of *Throat and Lung Complaints*, by a trait not common to such preparations, and so perfectly simple that the wish is that it be made the *Bedside and Pocket Companion* of all, and used without restraint as the enemy to all complaints of *Throat and Lungs*, from *common Colds to actual Consumption*. The second is

one of the most perfect remedies for all complaints of a nervous, or spasmodic character, including every variety of *Headache, Neuralgia, Gout, Rheumatism, Toothache, Earache, Distress after Eating, Bowel Complaints*, to that chief of all causes of disease, *Loss of Sleep*. The third is,

These Pills are designed as a perfect substitute for *Mercurials*, as an assistant to the *Cough Remedy*, and *Tolu Anodyne*, where complaints to which they are adapted are aggravated by *Costiveness, Biliouness, and Indigestion*, and to overcome a serious objection, namely, that of making *Pill Boxes* of the *Stomach*, as seldom but one is required to perform all that is claimed for them, and by their simplicity and ease of application to possess all the requisites of a *Perfect Family Pill*.

### TO PHYSICIANS,

I ask that they call for all evidence of the results of this study of the *Anatomy of Medicine*, in the shape of *Trial Bottles, Formulas, &c.*

### TO ALL DEALERS,

That they correspond with the proprietor, and with good references that they be supplied on commission, until they are as well known as at home, assuring them that terms are most liberal, that prices are within reach of all, and that every attraction goes with the remedies.

### TO INVALIDS,

I ask that they give me their confidence to make trial of the Remedies, to call for every evidence they may require, and they will find that confidence, not abused, *in real results*, in price, nor in what should be the work of medicine.

The preparations are for sale by all dealers throughout the United States and Canadas, or will be supplied as above on demand, by

**JOHN L. HUNNEWELL, Proprietor,**

Practical Chemist and Pharmaceutist, and member of the American Pharmaceutical College,  
Commercial Wharf, Boston, Mass.,

To whom please address all communications.

---

SABBATH SCHOOL BELL. No. 2.

70,000 copies issued the first four months of its publication. It is an entire new work of nearly 200 pages. Many of the tunes and hymns were written expressly for this volume. It will soon be as popular as its predecessor, (Bell No. 1) which has run up to the enormous number of 515,000 copies, in 32 months, outstripping any Sunday-School book of its size issued in this country. Also, both volumes are bound in one to accommodate schools wishing them in that form. Prices of Bell No. 2, paper covers, 15 cents, \$12 per 100; bound, 25 cents, \$18 per 100; cloth bound, embossed gilt, 30 cents, \$22 per 100. Bell No. 1, paper covers, 12 cents, \$10 per 100; bound, 20 cents, \$15 per 100; cloth bound, embossed gilt, 25 cents, \$20 per 100. Bells Nos. 1 and 2 bound together, 40 cents, \$30 per 100; cloth bound, embossed gilt, 50 cents, \$40 per 100. Mailed postage free at the retail price. HORACE WATERS, Publisher, No. 481 Broadway, New York.

---

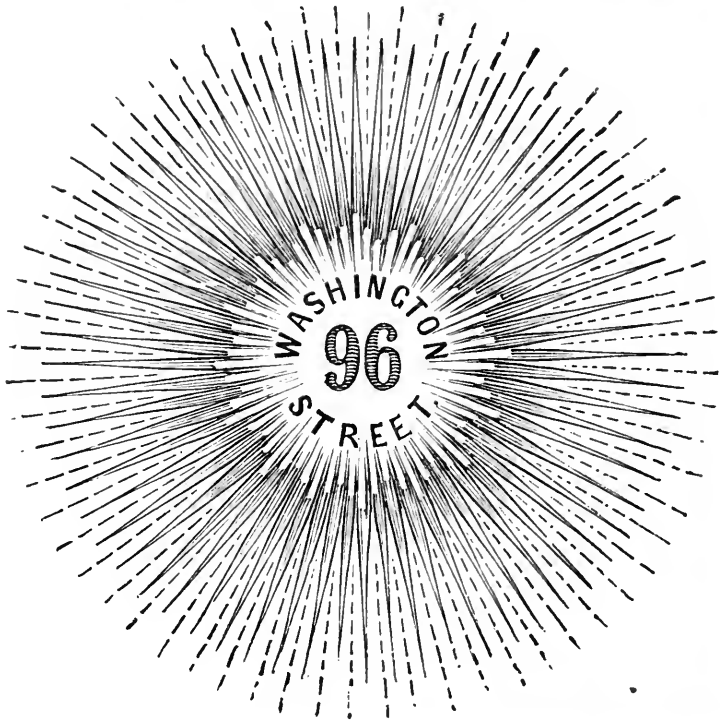

DAY SCHOOL BELL.

A new Singing Book for Day Schools, called the DAY SCHOOL BELL, is now ready. It contains about 200 pages of choice Songs, Solos, Rounds, Catches, Duets, Trios, Quartetts, and Choruses, many of them written expressly for this work, beside 32 pages of the Elements of Music. The Elements are so easy and progressive, that ordinary teachers will find themselves entirely successful in instructing even young scholars to sing correctly and scientifically, while the tunes and words embrace such a variety of lively, attractive, and soul-stirring music and sentiments, that no trouble will be experienced in inducing all beginners to go on with zeal in acquiring skill in one the most health-giving, beauty-improving, happiness-yielding, and order-producing exercises of school life. In simplicity of its Elements, in variety and adaptation of music, and in excellence and number of its songs, original, selected, and adapted, it claims by much to excel all competitors. It will be found to be the best book ever issued for Seminaries, Academies, and Public Schools. A few sample pages of the elements, tunes, and songs, are given in a circular; send and get one. It is compiled by HORACE WATERS, author of "Sabbath School Bells," Nos. 1 and 2, which have had the enormous sale of 585,000 copies in 32 months. Prices, paper covers, 20 cents, \$15 per 100; bound, 30 cents, \$22 per 100; cloth bound, embossed gilt, 40 cents, \$30 per 100. Mailed free at the retail price.

HORACE WATERS, Publisher,  
No. 481 Broadway, New York.

# WHIPPLE'S

DAGUERRETYPE

AND PHOTOGRAPHIC

## ESTABLISHMENT,

No. 96 Washington St., Boston, Mass.

Few things are more wonderful than that we are enabled at a sitting of a few seconds to produce most perfect likenesses of person, feature, face, and form; the very feelings of the soul, even, exactly pictured; that from the tiniest little Daguerreotype, so obscure as hardly to be seen, there can be brought out in enlarged Photograph, every feature, lineament, and look. These things truly are wonderful. But from early morn till shadowy eve we are doing just this; making many hearts glad. I now have had twenty years' experience in this business; employ the best artists to be obtained in the country; have every facility for making the most perfect likenesses; attend to patrons in person, and it is my delight to make pictures that are well pleasing to them, as well as gems of the Photographic art.

Those wishing likenesses of themselves or their Children, Daguerreotypes copied, Views of their residences, dim Daguerreotypes copied, enlarged as Photographs colored in oil like oil paintings, the pleasing little Card Photograph, or

**NEW STYLE LIFE-SIZE CRAYON PHOTOGRAPH,**

If they call upon us at

No. 96 Washington St., Boston,

Are assured the most satisfactory results.

# AYER'S SARSAPARILLA.

FOR THE CURE OF

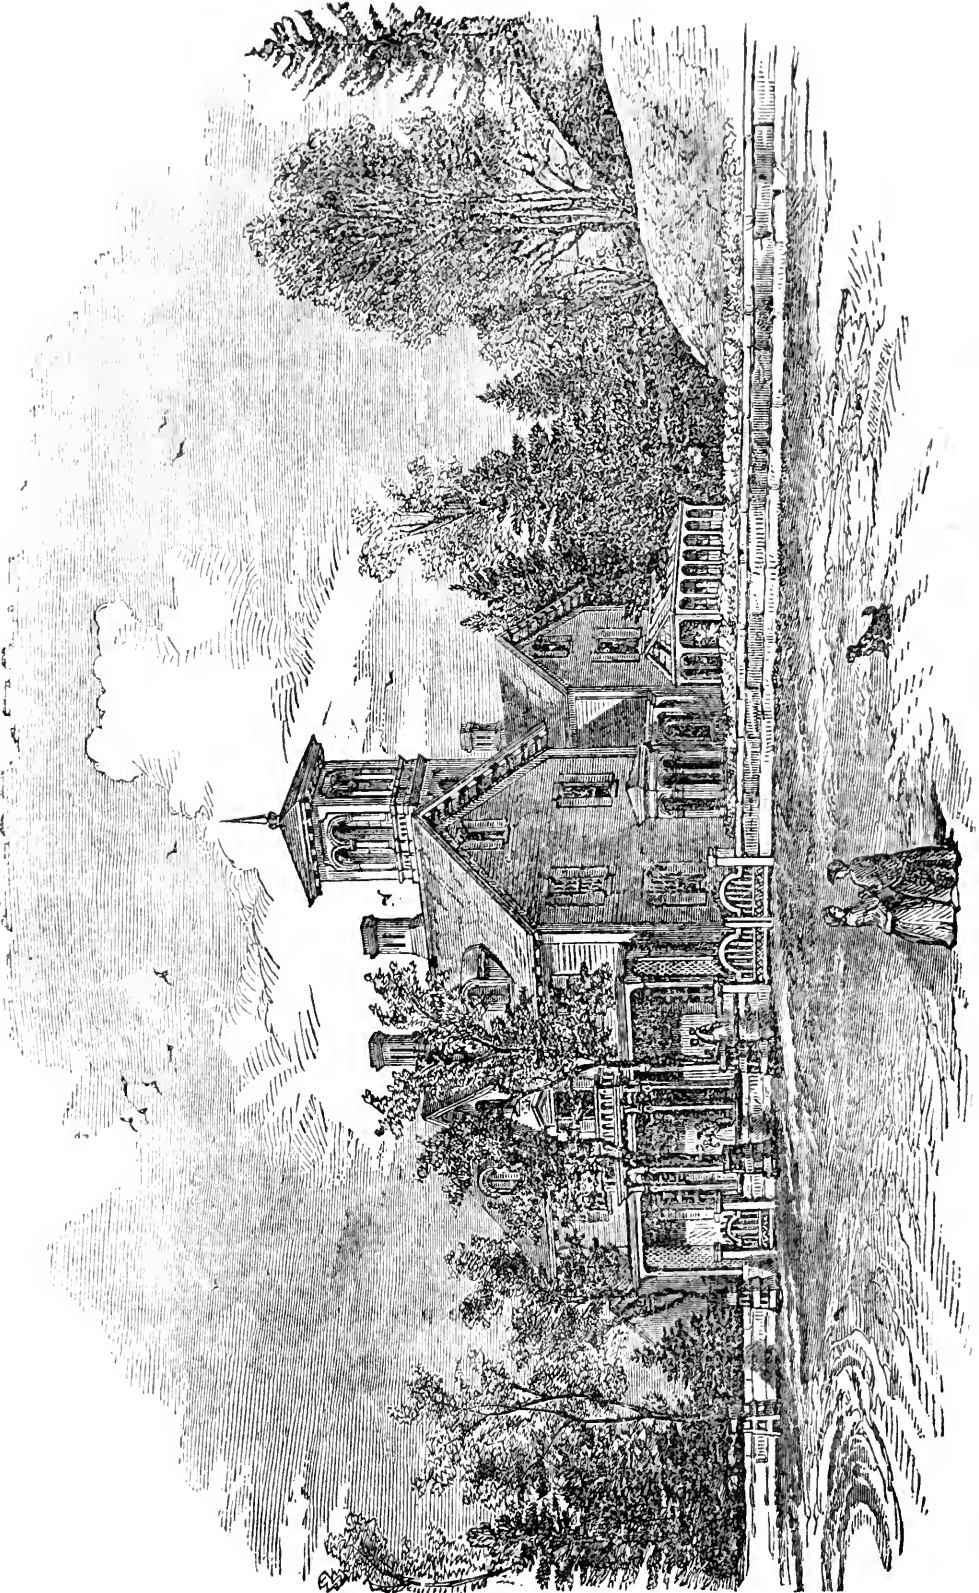

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheum, Debility, Dyspepsia and Indigestion, Erysipelas, Rose, or St. Anthony's Fire, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

The Sarsaparilla Root of the tropics has long been celebrated as one of the best alteratives we possess; but all physicians know that we have others as good, which, in skillful combination with Sarsaparilla, are far more effectual than any one drug alone can be.

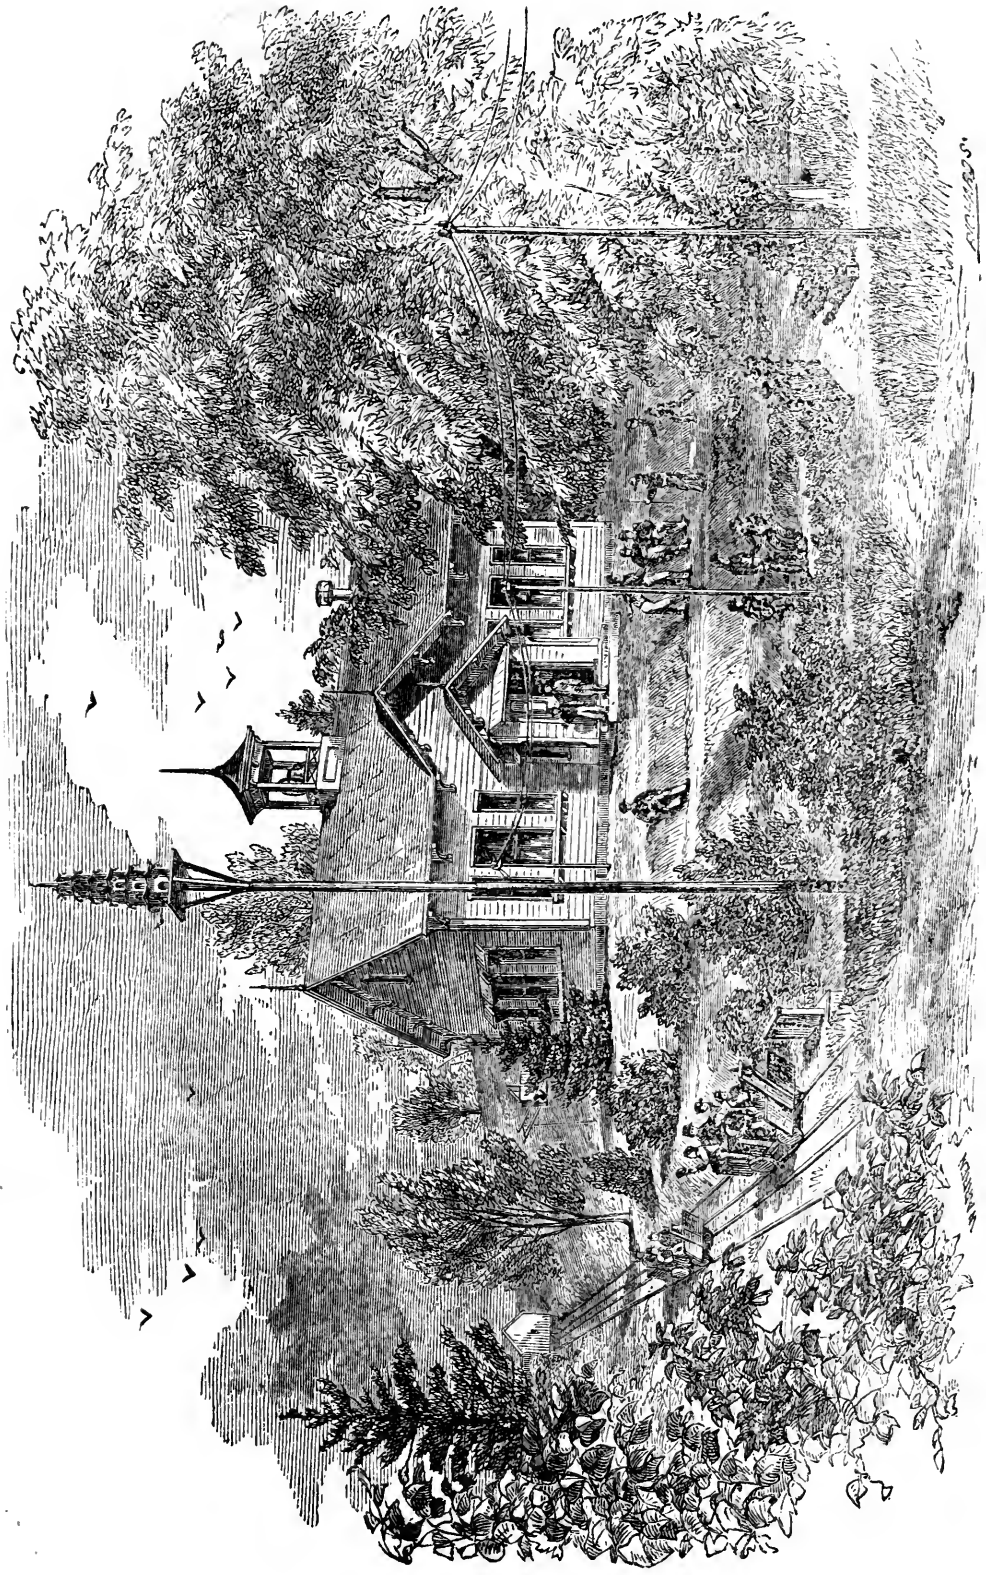

Hence this compound of Sarsaparilla, Dock, Stillingia, Mandrake, Iodine, etc., is found to possess a far greater power over disease than any one of these drugs ever has, in any quantity. It is a saturated extract from the freshly expressed juices of the vegetable alteratives that compose it, combined with salifiable bases of great alterative power. The process of its manufacture is such as to secure perfect uniformity of strength, and it is as rich in the virtues that compose it as it can be made. Its composition has been determined by long-continued and careful experiment with remedial agents, upon the worst cases which we could find, requiring an alterative cure. In order to determine what combination, and of what medicines is most effectual for the cure of scrofulous complaints, we have advertised for such patients, to be treated without charge, and have cured great numbers afflicted with the worst forms of *Scrofula* and *scrofulous diseases*. Not a few who had given themselves up as incurable are now abroad in perfect health, visible and indisputable evidence of what this remedy has done. As the result of these experiments we offer this remedy to the people, with confidence that it will prove more effectual than any which has hitherto been available to them.

For purifying the Blood, nothing has ever been offered which can compare with this Extract of Sarsaparilla. It is found a great promoter of health, when taken in the spring, to expel the humors which rankle in the system at that season of the year. Many complaints have their origin in the spring, and in the causes above mentioned, for which no better remedy has ever been devised. By its use multitudes can spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system strives to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the machinery of life is disordered or overthrown. Medicines designed like this for public use, should be the very best that it is possible to produce. As it has been the labor of our life to make such remedies, and as these are all we have ever offered, **the public** can judge something of the amount of toil they have cost. Our ambition has been to make each one more perfect, more valuable, more effectual than its predecessor, and the indications from this sufficiently show that its virtues will sustain any expectations which our preparations already before them may lead the public to form of it. Being composed of vegetable products only, this remedy is harmless as well as effectual—a fact of immense importance to those who take it; for many of the alteratives in market have mercury or arsenic as their basis; and thus, although they may sometimes effect cures, still they entail a countless train of evils upon their victims, often worse than the original disease.

Price, \$1 per bottle, or six bottles in one package for \$5. Although smaller than some others, it is so much stronger as to be actually the cheapest as well as best preparation of Sarsaparilla ever offered to the American people. Prepared by Dr. J. C. AYER & CO., Lowell, Mass. Sold at Wholesale and Retail by all dealers in medicine everywhere.

AGENTS FOR THE SALE OF

## Coe's Improved Super-Phosphate of Lime.

The sale of this valuable Fertilizer has increased from year to year, and during the past season upwards of 300 tons have been sold in this market. Its superior fertilizing effects, and its adaptedness for the advancement of crops (particularly Corn, Potatoes, and Garden Vegetables), render to it the merit of being the best and most economical manure used. It is also highly beneficial for Grass and Grain Crops. Also useful in destroying Bugs and Worms, which are hidden in the ground, and which so often prove destructive to crops. It is put up in strong bags, of 125 pounds each.

Circulars containing numerous testimonials from practical and reliable parties, with full directions for use, furnished on application to

---

 TESTIMONIALS:
 

---

PORTLAND, May 29, 1861. While suffering a severe attack of Neuralgia, I used two bottles of your Compound, and experienced great relief. I cordially recommend it to the afflicted as a sure remedy.  
J. SWETT.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.  
ALBERT SMITH, Ex-Member of Congress from Maine.

Having been afflicted with Rheumatism more or less for a number of years, causing me great annoyance, as well as suffering, and after trying almost every remedy that could be imagined, a friend induced me to try your "Compound." One bottle entirely cured me, and I heartily endorse all that has been said in its favor.  
Respectfully yours,  
ROBERT COWDIN,  
Colonel 1st Reg't Mass. Volunteers.

The Rheumatic and Neuralgia Compound has been taken by hundreds of people for Scrofulous Humors with great benefit.

# FRUIT TREES.

## 10 ACRES PLANTED.

ESTABLISHED 1849.

JOHN W. ADAMS, Portland,

Cultivates for Sale, at his Nurseries, near Morrill's Corner, all the hardy Varieties of FRUIT TREES, both for Orchards and Gardens.

### Black Hamburg, and other Foreign Vines for Graperies.

**Pear and Plum Trees** on their own roots. **Apple Trees**, grown and proved in Maine *tender sorts rejected*. **New Hardy Grape Vines**, varieties which ripen one to six weeks before the Isabella, suited to all parts of Maine and Canada; *late sorts rejected*. **Vines** of extra size. **Vines** of medium size. **Vines** of small size, with good roots. Delaware; Concord; Hartford Prolific; Allen's Hybrid White; Diana; Rebecca; Northern Muscadine; Roger's Hybrid Nos; Black Cluster; Garrigues; Dracut Amber; August Pioneer, and many others.

**Currants**, the improved sorts, which, for size, strong growth, and exceeding fertility, are displacing all other varieties. Fertile of Pallua; La Versailles; Knight's Large Red; White Grape; Fertile of Angers; Cherry; Victoria; White Gondoin.

**Gooseberries**, and other small fruits. **Rhubarb and Asparagus**.

**Strawberries**.—The new and most productive varieties are obtained and propagated for sale as soon as offered elsewhere.

### ORNAMENTAL TREES.

Horse Chesnut, Silver Maple, Broadleaf Elm, Norway Spruce,  
Mountain Ash, Sugar Maple, American Elm, Arbor Vitæ, Larch, &c.

**Hardy Roses**, over 200 varieties, covering an acre of ground. The natural fitness of the soil enables us to supply clubs and dealers at very low rates.

### Extra Fine Bulbs, of the new Japan Lilies.

Hedge Plants, Border Plants, Daisies, Pansies, Pæonies, Phloxes, Dahlias, &c.

The Collection of **Fruit Trees** is the largest to be found in the State, and selections can be made at any time. The Trees are not only vigorous and healthy, but grown with great care to insure accuracy. In all cases, when desired, selections will be made with scrupulous care by the proprietor.

**Packing done by men of experience, for all parts of the Country.**

Passengers by Railroad stop at Westbrook Station. Cars and Omnibuses, from the city, pass hourly. Catalogues sent gratis to applicants. Orders from a distance, if accompanied by a remittance or proper reference, shall have prompt attention.

**BAILEY & NOYES,**

# THE BOSTON REMEDY!

## REDDING'S RUSSIA SALVE VEGETABLE OINTMENT:

Is perfectly free from any mercurial matter or injurious particles, and in no case will its application interfere with the remedies that may be prescribed by a regular physician. The Medical Faculty, throughout the Union, are unanimous in its praise. It has been used in the New-England States during the past fifty years, and the more its virtues are known the greater is its demand. It may truly be considered an indispensable article of household necessity,—being used alike by rich and poor. The length of time it has been before the public is conclusive proof that it is no “catch-penny” preparation, put forth to have a fictitious popularity, and then sink to rise no more.

REDDING'S RUSSIA SALVE is one of the best and surest remedies for all those numerous bodily afflictions as—

**Burns, Scalds, Felons, Flesh Wounds, Old Sores, Piles, Chapped Hands, Chilblains, Erysipelas, Sore Nipples, Frost-Bitten Parts, Sprains, Corns, Wens, Cancers, Ulcers, Warts, Sties, Whitlows, Festers, Bunions, Ringworm, Sore Lips, Sore Eyes, Nettle Rash, Salt Rheum, Mosquito Bites, Spider Stings, Flea Bites, Shingles, Cuts, Boils, Ingrowing Nails, Eruptions, Pimples, Freckles, Tan, Sun-Burn Blisters, and all Cutaneous Diseases and Eruptions Generally.**

## REDDING'S RUSSIA SALVE

is prompt in action, removes pain at once, and reduces the most angry-looking swellings and inflammations as if by magic,—thus affording immediate relief and a complete cure. Many persons have received great benefit from its use during the Summer, as it will remove *Freckles* and *Sunburn*, and produce that soft appearance of the skin so much desired.

This Salve is put up in metal boxes, three sizes, at 25 cents, 50 cents, and \$1,—the largest size contains the quantity of *six* of the smallest boxes,—and is warranted to retain its virtues in any climate. Each wrapper has a picture of a wounded soldier, with an army surgeon stooping over him,—his horse standing by, and the signature of “*Redding & Co.*” immediately above.

 *Redding & Co. will send a box of the Russia Salve, post-paid, to any part of the United States, on receipt of 25 cents.*

# GREAT REDUCTION IN THE PRICES OF SINGER & CO.'S STANDARD MACHINES,

Well known to be the Best for Manufacturing Purposes.

No. 1, Shuttle Machine, formerly sold at . . \$90, Reduced to . . \$70.  
No. 2, Shuttle Machine, formerly sold at . . \$100, Reduced to . . \$75.

## Singer's Letter A Machine,

Is the best Machine in the World for Family Sewing and Light Manufacturing Purposes. Price--with Hemmer and beautifully ornamented--\$50.

We would ask for our **Letter A** Machines, the special attention of Vest Makers and Dress Makers, and all those who want Machines for light manufacturing purposes. They embody the principles of the Manufacturing Machines, making, like them, the interlocked stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our Manufacturing Machines are for manufacturing purposes in general. **FAMILY SEWING MACHINES** are valuable in proportion to the number of things they can do well. See what ours can do before making a purchase.

There is no doubt as to the value of our Machines for manufacturing purposes, but it is only of late that the public began to learn that the essential elements of a Machine best adapted to the heaviest work would also be the elements to be embodied in a Family Machine. It is now well understood that our **Letter A** Machine is the only Family Machine yet offered to the public which has simplicity, rapidity, durability, and certainty of correct action. While, as a general thing, the Sewing Machine people are candid enough to acknowledge that our machines are unequalled for manufacturing purposes, they are almost sure to assert, in the same breath, that **SINGER'S LETTER A**, or **FAMILY MACHINES**, are not as good as theirs! This is a mere trick of the trade, and we confidently invite those interested in the subject to examine for themselves, and see what our **Letter A Family Machines**, with all the recent improvements, are capable of doing. While they will sew the most delicate material to perfection, as already stated, they are also adapted to light manufacturing purposes, and this, be it remembered, cannot be said of any of the other Family Machines yet offered to the public.

The Nos. 1 and 2 Machines are of great capacity and application for manufacturing purposes.

Our No. 3 Machines are especially adapted to all kinds of light and heavy Leather Work, in Carriage Trimming, Boot and Shoe Making, Harness Making, etc.. etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmer's stitching that cannot be better done with them than by hand: so, too, the saving of time and labor is very great. The table of these machines is 24 inches long, and the shuttle will hold six times as much thread as the shuttle of those used for tailoring purposes. The large machines work as fast as small ones.

We have always on hand, Hemming Gauges, Silk Twist, Linen and Cotton Thread on Spools, best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold of the most inferior quality, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. A bad needle may render the working of the best machine almost useless.

Our customers may rest assured that all our Branch Offices are furnished with the "genuine article."

In case of small purchases, the money may be sent in postage stamps, or bank notes.

Correspondents will please write their names distinctly. It is all important that we should, in each case, know the Post Office, County, and State.

All persons requiring information about Sewing Machines, their sizes, prices, working capacities, and the best method of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

### "I. M. Singer & Co.'s Gazette,"

which is a beautiful Pictorial Paper entirely devoted to the subject. It will be sent gratis.

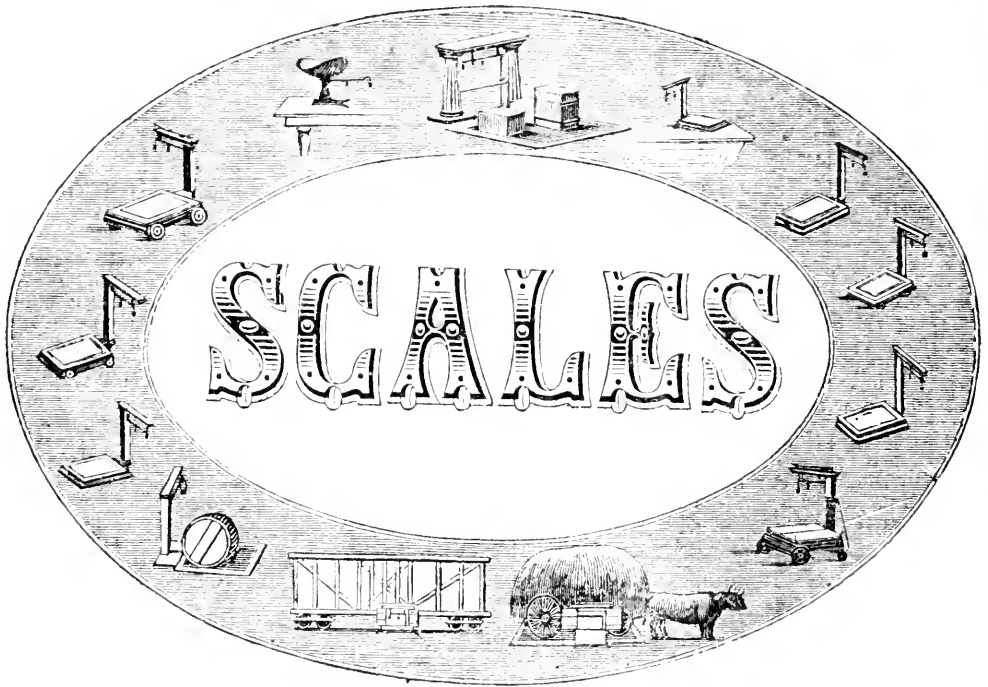

We have made the above **REDUCTION IN PRICES** with the two-fold view of benefiting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, **BADLY MADE**, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a Machine, are: certainty of correct action at all rates of speed, simplicity of construction, great durability, and rapidity of operation, with the least labor. Machines to combine these essential qualities, must be made of the best metal and finished to perfection. We have the ways and means, on a grand scale, to do this.

The purchasers of Machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will earn *more money* with *less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machines as a gift.

**I. M. SINGER & CO., 458 Broadway, New York.**

# FAIRBANKS' PREMIUM STANDARD

# RICH ROLLING PRAIRIE LANDS

**FOR**  
**THOUSANDS**

**One Thousand Dollars!!!**

**IN THE MOST FERTILE STATE IN THE UNION!!!**

**The Illinois Central Railroad Co.**  
**RICH ROLLING PRAIRIE LAND**  
**AT THE LOW PRICE OF**

**\$12 per ACRE!!**

These Lands are adjacent to the Railroad. A tract of **EIGHTY ACRES** will make a good comfortable homestead. The purchaser may buy

**ON LONG CREDIT!**

paying interest at six per cent. annually, and if he has one thousand dollars in money, he can this year, at

**THE LOW PRICE**

of Lumber, contract for a convenient house, fencing and farming tools. The Company has sold **OVER ONE THOUSAND** of such

**TRACTS OF LAND**

this season. It is well known that Chicago sends

more grain to market than all the Western lake ports combined; this is the best proof of the richness and

**GREAT VALUE OF**

the Illinois Lands. The Illinois Central Railroad was finished in 1856, built through a sparsely settled country. It takes to market this year, upwards of

**THIRTEEN MILLIONS OF BUSHELS**

of Grain, besides cattle, hogs, and many other products. For further information, apply by letter or in person to

**Land Commissioner,**  
ILLINOIS CENTRAL RAILROAD, Chicago, Ill.

For names of Towns, Villages and Cities, situated upon the Illinois Central Railway, see pages 188, 189 and 190, Appleton's Railway Guide.

For description of Land, terms of payment, and Map of the Illinois Central Railway, delineating the principal routes to and through the State of Illinois, see back of large United States Railway Map, in front of Appleton's Railway Guide.
